'79-'80

READ OWNER'S MANUAL

Before operating this motorcycle, read the Owner's Manual. It contains important information about the motorcycle, its controls, and its operation. It also contains safety information. Read it carefully and keep it handy for reference.

Check the engine oil level before starting the engine. The oil level should be at the "Full" mark on the dipstick. If the oil level is low, add the recommended oil. Do not overfill. Check the oil level frequently, especially when riding in hot weather or on a long trip.

USE PROPER POSTURE

When riding, use proper posture. Sit upright on the seat, with your feet on the footpegs. Keep your arms and legs relaxed. Do not lean forward or backward. This will help you maintain control of the motorcycle and avoid fatigue.

Do not drink and ride. Alcohol impairs your judgment and reaction time, making it difficult to operate the motorcycle safely. Even a small amount of alcohol can be dangerous. If you have been drinking, do not ride.

Do not ride on public roads if you are not licensed to do so. Riding on public roads without a license is illegal and dangerous. Only ride on private property or on a closed course if you are properly licensed and trained.

Always wear your seat belt. This is the most important safety precaution you can take. It can save your life in the event of an accident. Make sure your seat belt is properly fastened and adjusted before riding.
