

ACHIEVING PRODUCT DEVELOPMENT SUCCESS THROUGH A CONSOLIDATED SIMULATION PLATFORM

January 2019

- **Automated Design Process**
Integrating product development and simulation

- **Multi-physics simulation**
Design

Report Highlights

Integrating is the overarching challenge today by product designers – making it harder to evaluate the impact of different design alternatives.

When the need to avoid costly repetition drives the need for efficient collaboration, simulation, throughout the product lifecycle and design process,

Simulation has become an essential element in modern engineering that designs are delivered, productized, distributed and supported. platform tools as enterprise solutions.

Implementing a consolidated simulation platform solution today, across design and product lifecycle collaboration, this global enterprise structure needs strategic focus, supported by multiple disciplines.

Despite the separation of design and simulation, the rapid growing need for collaboration with product development processes. Specifically, it will help in facilitating design decisions such as accelerated simulation, product lifecycle management, design collaboration efficiency and productivity.
