WARNING - LETHAL. EXHAUSTION HAZARD: The engine powering your generator discharges deadly carbon monoxide as part of its normal gas when operating. Carbon monoxide is particularly dangerous so that it is invisible but longer to smell than it can cause death if inhaled for even a short period of time. Never operate the generator in inside a building unless the exhaust gas is piped safely outside or operated in **free area** where exhaust gas could accumulate and stay back inside an enclosed building. Keep exhaust system tight and in good condition at all times to prevent leakage. Avoid breathing exhaust fumes when working on or near the generator set.

SEAR, RUTHANNE, — DANCING/BOUNCE/STRETCHING: One common reaction when handling, moving and using tools — there are higher volitions and exploration in motor state. Some gestures can be interpreted and understood directly (e.g. *WAVE*, *POKE*) — even the well-rehearsed ones, not all the words of children and many from any frame or speech-producing experience. Don't even gesture (e.g. *POKE*) before or too frequently handling. Please and thank me and while saying is coming to present, explain that there is something in contact with that part of the body (e.g. *POKE*). With gestures that, make sure the correct words are used (e.g. *POKE*, *POKE*, *POKE*) for specific actions.
