Lab Manual For Dispensing Pharmacy:

Laboratory Manual of Community Pharmacy and Management Dr. Remeth J. Dias, Dr. Kailas Mali, Mr. Vijay D. Havaldar, Dr. Vishwajeet S. Ghorpade, 2023-09-28 We are very pleased to put forth the revised edition of Laboratory Manual of Community Pharmacy and Management. We have incorporated all the suggestions modified it to make it easier, student friendly and relevant in terms of achieving curriculum outcome. We are very much thankful to all the learned teachers who have given their feedback wholeheartedly. We have even incorporated the changes in this manual based on the feedback given by the teachers from all the institutes. Now we believe that the manual has been fulfilling the aspirations of pharmacology teachers and students too. This manual is prepared as per PCI Education Regulations 2020 for Diploma Course in Pharmacy. The manual is designed to train the students for improving their professional skills of providing various pharmaceutical care services in community pharmacy. The special emphasis is given on the activities that can be performed in the community pharmacy so that the students can do the effective patient counselling on various chronic diseases. The practical manual helps students to gain in-depth knowledge of providing professional services like handling of prescriptions, preparation of dispensing and auxiliary labels, health screening services, administration techniques of various dosage forms and use of community pharmacy software for the betterment of the community health. This manual is designed for outcome-based education and each experiment is arranged in a uniform way such as practical significance, practical outcomes, POs and its mapping with course outcomes, minimum theoretical background, resources used, procedure, precautions, observations, result, conclusion, references and related questions. Moreover, an assessment scheme is also given to help the student and teacher to know what is to be assessed. Every experiment has the component of activity or role play included so that the students will be able to interact with the patients and give them the counselling tips on administration, proper use and storage of the dosage forms. The preparation of counselling materials such as patient information leaflets is also included as an activity. We acknowledge the help and cooperation extended by various persons in bringing out this manual. We are highly indebted to the authors of various books and articles mentioned in references of each experiment which became a major source of information for writing this manual. We also admire the publishers, designers and printers who graciously worked hard to publish this manual. Hope this manual will help the students to learn the concept, principles and perform the activities and role play for counselling the public about diseases and medications. We wish you all the best. **Veterinary**

Laboratory Manual of Industrial Pharmacy

I Dr. Kailas Mali, Mrs. Maya Tukaram Desai, Dr. Avinash Hanmant Hosmani, Dr. Nitin Hindurao Salunkhe, 2023-09-28

We are very pleased to put forth the first edition of Laboratory Manual of Industrial Pharmacy I. We believe that the manual will fulfill the aspirations of Industrial Pharmacy teachers and students too. This manual is prepared as per PCI Education Regulations 2014 for Degree Course in Pharmacy. Each experiment is arranged sequentially such as aim, practical significance, practical outcomes, theory, requirements, procedure, observations, calculations, results, conclusions and synopsis, questions. Each experiment offers an opportunity to perform practical work allowing students to acquire proficiency in effectively managing equipment, handling glassware, chemicals and writing conclusion. In addition, questions are provided at the end of the experiments to enhance student's knowledge which will be beneficial for them as they pursue higher studies. During the laboratory period, you will have to multitask while you are doing experiment. It is essential to document properly what you do and what you observe while doing the practical. Always plan your work ahead and think about what you are doing, why you are doing it, what is happening and what you can conclude from your experiment. This manual is a sincere effort to improve the practical skills of the students so that every student will understand the objective of each experiment and perform their practical smoothly. Theory of each experiment is given in all sixteen experiments making the manual more informative and interesting. We acknowledge the help and co-operation extended by various people in bringing out this manual. We are highly indebted to the authors of various books and articles mentioned in bibliography which became a major source of information for writing this manual. We also thank the publishers, designers and printers who graciously worked hard to publish this manual in time.
