## **Lacan In The German Speaking World:**

**Lacan in the German-Speaking World** Elizabeth Stewart, Maire Jaanus, Richard Feldstein, 2004-05-10 Addresses Lacan's reception in Germany Austria and Switzerland offering new perspectives for American readers *Lacan in the German-Speaking World* Elizabeth Stewart, Richard Feldstein, Maire Jaanus, 2004-05-11 This book offers a selection of the best work on Lacan that has been published over the past ten years by RISS a Swiss journal of Lacanian studies Though focused on Lacan and Freud the collection is partly about Germany itself addressing questions of trauma historical memory politics fascism and democracy The essays range from investigations of particular art forms such as music and tragedy to clinical studies of melancholia depression anxiety and other somatic phenomena that have a symbolic or psychic dimension As a whole the book explores the breakdown of meaning and the failure of social and political structures which Lacan addresses through the category of the Real and it offers English speaking readers a variety of new perspectives on Lacan and psychoanalysis

**Lacan in Italy** Luca Di Gregorio, 2025-06-25 This book provides the first analysis of the reception and development of Lacanian psychoanalysis in Italy offering a comprehensive account of the relevance and contributions of Italian Lacanians It examines Italian Lacanianism through its distinctive engagement with clinical practice sociopolitical analysis and aesthetics highlighting the work of influential figures such as Sergio Benvenuto and Massimo Recalcati Lacan in Italy proposes a nuanced understanding of how Italian Lacanians reinterpret Lacan's legacy advancing an affirmative approach to the notion of the real often conceptualised in negative terms as traumatic impossible unrepresentable and unsymbolisable by emphasising its generative life affirming potential The book also fosters dialogue with Lacanian receptions across different countries and languages

The Later Lacan Veronique Voruz, Bogdan Wolf, 2012-02-01 This book includes essays by some of the finest practicing analysts and teachers of psychoanalysis in the Lacanian community today The writings offer an essential introduction to the later teachings of Jacques Lacan illuminate the theoretical developments introduced by the later Lacan and explore their clinical implications with remarkable acumen

**Cinema, Suffering and Psychoanalysis** Laura Stephenson, 2023-12-14 Cinema Suffering and Psychoanalysis explores psychological disorder as common to the human condition using a unique three angled approach psychoanalysis recognises the inherent suffering encountered by each subject due to developmental phases psychology applies specific categorisation to how this suffering manifests cinema depicts suffering through a combination of video and aural elements Functioning as a culturally reflexive medium the six feature films analysed including *Black Swan* 2010 and *The Machinist* 2004 represent some of the most common psychological disorders and lived experiences of the contemporary era This book enters uncharted terrain in cinema scholarship by combining clinical psychology's Diagnostic and Statistical Manual Five DSM V to organise and diagnose each character and psychoanalysis to track the origin mechanism and affect of the psychological disorder within the narrative trajectory of each film Lacan's theories on the infantile mirror phase the Imaginary and the Symbolic i ek's theories

on the Real the big Other and the Event and Kristeva's theories on abjection and melancholia work in combination with the DSM's classification of symptoms to interpret six contemporary pieces of cinema By taking into consideration that origin mechanism affect and symptomatology are part of an interconnected group this book explores psychological disorder as part of the human condition something which contributes to and informs personal identity More specifically this research refutes the notion that psychological disorder and psychological health exist as a binary instead recognising that what has traditionally been pathologised may instead be viewed as variations on human identity

Critique of Psychoanalytic Reason Dany Nobus, 2022-04-27 The highly arcane wisdom produced by the French psychoanalyst Jacques Lacan is either endlessly regurgitated and recited as holy writ by his numerous acolytes or radically dismissed as unpalatable nonsense by his equally countless detractors Contrary to these common strictly antagonistic yet uniformly uncritical practices this book offers a meticulous critique of some key theoretical and clinical aspects of Lacan's expansive oeuvre testing their consistency examining their implications and investigating their significance In nine interrelated chapters the book highlights both the flaws and the strengths of Lacan's ideas in areas of investigation that are as crucial as they are contentious within as well as outside psychoanalysis Drawing on a vast range of source materials including many unpublished archival documents it teases out controversial issues such as money organisational failure and lighthearted gay thinking and it relies on the highest standards of scholarly excellence to develop its arguments At the same time the book does not presuppose any prior knowledge of Lacanian psychoanalysis on the part of the reader but allows its readership to indulge in the joys of in depth critical analysis trans disciplinary creative thinking and persistent questioning This book will appeal to researchers and students alike in psychoanalytic studies and philosophy as well as all those interested in French theory and the history of ideas

Antigone, in Her Unbearable Splendor Charles Freeland, 2013-05-28 With its privileging of the unconscious Jacques Lacan's psychoanalytic thought would seem to be at odds with the goals and methods of philosophy Lacan himself embraced the term anti philosophy in characterizing his work and yet his seminars undeniably evince rich engagement with the Western philosophical tradition These essays explore how Lacan's work challenges and builds on this tradition of ethical and political

thought connecting his ethics of psychoanalysis to both the classical Greek tradition of Socrates Plato and Aristotle and to the Enlightenment tradition of Kant Hegel and de Sade Charles Freeland shows how Lacan critically addressed some of the key ethical concerns of those traditions the pursuit of truth and the ethical good the ideals of self knowledge and the care of the soul and the relation of moral law to the tragic dimensions of death and desire Rather than sustaining the characterization of Lacan s work as anti philosophical these essays identify a resonance capable of enriching philosophy by opening it to wider and evermore challenging perspectives

**The Time of Catastrophe** Christopher Dole, Robert Hayashi, Andrew Poe, Austin Sarat, 2016-03-09 If catastrophes are by definition exceptional events of such magnitude that worlds and lives are dramatically overturned the question of timing would pose a seemingly straightforward if not redundant question *The Time of Catastrophe* demonstrates the analytic productiveness of this question arguing that there is much to be gained by interrogating the temporal conceits of conventional understandings of catastrophe and the catastrophic Bringing together a distinguished interdisciplinary group of scholars the book develops a critical language for examining catastrophic time recognizing the central importance of and offering a set of frameworks for examining the alluring and elusive qualities of catastrophe Framed around the ideas of

Agamben Kant and Benjamin and drawing on philosophy history law political science anthropology and the arts this volume seeks to demonstrate how the question of catastrophic time is in fact a question about something much more than the frequency of disasters in our so called Age of Catastrophe

*Notational Experiments in North American Long Poems, 1961-2011* A. J. Carruthers, 2017-01-28 This book is a critical experiment that tracks the literary and poetic uses of musical notation and notational methods in North American long poems from the middle of last century to the contemporary moment Poets have readily referred to their poems as scores Yet in this study Carruthers argues that the integration of musical scores in expansive works of this period does more work than previously thought offering both resolution and escape from the demands placed on long poem form The five case studies on Langston Hughes Armand Schwerner BpNichol Joan Retallack and Anne Waldman offer approaches to reading literary scores in what might be described as a critical stave or a critical fugue of instances In differing ways musical notation and notational methods impact the form time and sometimes the ethical and political stances of these respective long poems

Hysteria Andrew Scull, 2011-10-13 The story of hysteria is a curious one for it persists as an illness for centuries before disappearing Andrew Scull gives a fascinating account of this socially constructed disease that came to be strongly associated with women showing the shifts in social cultural and medical perceptions through history

Psychoanalysis and Digital Culture Jacob Johanssen, 2018-10-31 Psychoanalysis and Digital Culture offers a comprehensive account of our contemporary media environment digital culture and audiences in particular by drawing on psychoanalysis and media studies frameworks It provides an introduction to the psychoanalytic affect theories of Sigmund Freud and Didier Anzieu and applies them

theoretically and methodologically in a number of case studies Johanssen argues that digital media fundamentally shape our subjectivities on affective and unconscious levels and he critically analyses phenomena such as television viewing Twitter use affective labour on social media and data mining How does watching television involve the body Why are we so drawn to reality television Why do we share certain things on social media and not others How are bodies represented on social media How do big data and data mining influence our identities Can algorithms help us make better decisions These questions amongst others are addressed in the chapters of this wide ranging book Johanssen shows in a number of case studies how a psychoanalytic angle can bring new insights to audience studies and digital media research more generally From audience research with viewers of the reality television show *Embarrassing Bodies* and how they unconsciously used it to work through feelings about their own bodies to a critical engagement with Hardt and Negri's notion of affective labour and how individuals with bodily differences used social media for their own affective digital labour the book suggests that an understanding of affect based on Freud and Anzieu is helpful when thinking about media use The monograph also discusses the perverse implications of algorithms big data and data mining for subjectivities In drawing on empirical data and examples throughout Johanssen presents a compelling analysis of our contemporary media environment
