Phillips,S. Jay Kleinberg,2016-02-19 Women have been important contributors to and readers of magazines since the  
development of the periodical press in the nineteenth century By the mid twentieth century millions of women read the  
weeklies and monthlies that focused on supposedly feminine concerns of the home family and appearance In the decades that  
followed feminist scholars criticized such publications as at best conservative and at worst regressive in their treatment of  
gender norms and ideals However this perspective obscures the heterogeneity of the magazine industry itself and women s  
experiences of it both as readers and as journalists This collection explores such diversity highlighting the differing and at  
times contradictory images and understandings of women in a range of magazines and women s contributions to magazines  
in a number of contexts from late nineteenth century publications to twenty first century titles in Britain North America  
continental Europe and Australia     Real Fantasies Patricia Johnston,2023-11-15 During the 1920s and 1930s Edward  
Steichen was the most successful photographer in the advertising industry Although much has been said about Steichen s  
fine art photography his commercial work which appeared regularly in Vanity Fair Vogue Ladies Home Journal and almost  
every other popular magazine published in the United States has not received the attention it deserves At a time when  
photography was just beginning to replace drawings as the favored medium for advertising Steichen helped transform the  
producers of such products as Welch s grape juice and Jergens lotion from small family businesses to national household  
names In this book Patricia Johnston uses Steichen s work as a case study of the history of advertising and the American  
economy between the wars She traces the development of Steichen s work from an early naturalistic style through  
increasingly calculated attempts to construct consumer fantasies By the 1930s alluring images of romance and class  
developed in collaboration with agency staff and packaged in overtly manipulative and persuasive photographs became  
Steichen s stock in trade He was most frequently chosen by agencies for products targeted toward women his images  
depicted vivacious singles earnest new mothers and other stereotypically female life stages that reveal a great deal about the  
industry s perceptions of and pitches to this particular audience Johnston presents an intriguing inside view of advertising  
agencies drawing on an array of internal documents to reconstruct the team process that involved clients art directors  
account executives copywriters and photographers Her book is a telling chronicle of the role of mass media imagery in

reflecting shaping and challenging social values in American culture During the 1920s and 1930s Edward Steichen was the most successful photographer in the advertising industry Although much has been said about Steichen's fine art photography his commercial work which appeared regularly in *Vanity Fair* *Vogue* *Ladies Home* **We Are What We Sell** Danielle Sarver Coombs, Bob Batchelor, 2014-01-15 For the last 150 years advertising has created a consumer culture in the United States shaping every facet of American life from what we eat and drink to the clothes we wear and the cars we drive In the United States advertising has carved out an essential place in American culture and advertising messages undoubtedly play a significant role in determining how people interpret the world around them This three volume set examines the myriad ways that advertising has influenced many aspects of 20th century American society such as popular culture politics and the economy Advertising not only played a critical role in selling goods to an eager public but it also served to establish the now world renowned consumer culture of our country and fuel the notion of the American dream The collection spotlights the most important advertising campaigns brands and companies in American history from the late 1800s to modern day Each fact driven essay provides insight and in depth analysis that general readers will find fascinating as well as historical details and contextual nuance students and researchers will greatly appreciate These volumes demonstrate why advertising is absolutely necessary not only for companies behind the messaging but also in defining what it means to be an American

Ladies' Home Journal [87]., 1986 *Breastfeeding and Media* Katherine A. Foss, 2017-06-14 This book centers on the role of media in shaping public perceptions of breastfeeding Drawing from magazines doctors office materials parenting books television websites and other media outlets Katherine A Foss explores how historical and contemporary media often undermine breastfeeding efforts with formula marketing and narrow portrayals of nursing women and their experiences Foss argues that the media's messages play an integral role in setting the standard of public knowledge and attitudes toward breastfeeding as she traces shifting public perceptions of breastfeeding and their corresponding media constructions from the development of commercial formula through contemporary times This analysis demonstrates how attributions of blame have negatively impacted public health approaches to breastfeeding thus confronting the misperception that breastfeeding and the failure to breastfeed rests solely on the responsibility of an individual mother *Catalog of Copyright Entries.
