STEM Education in the Junior Secondary Robyn Jorgensen,Kevin Larkin,2017-08-09 This book brings together a collection of internationally renowned authors in the STEM field to share innovations in the teaching of STEM It focuses on the junior secondary years of education students aged 11 15 since this is the age range in which students choose whether or not to formally opt out of STEM education It is here that the book makes a significant contribution to the field by integrating the STEM area and focusing on the junior years of schooling While developing this book the editors drew on two main premises Firstly STEM is seen as the integrated study of science technology engineering and mathematics in a coherent learning paradigm that is based on real world applications Secondly it is important to integrate digital technologies into STEM education beyond the superficial use of ICTs seen in many schools The book also addresses the challenges within STEM education many of which are long standing To this end it includes chapters on marginalised and diverse communities ensuring that a broad range of perspectives on STEM education is included *Trends of Private International Law* Pavel Kalenský,2013-12-01 to Seeking the answer to the three basic questions of contemporary private international law I also deemed it essential to outline to the reader the historical development of the different concepts of this particular branch of law for without the knowledge of this history it is impossible to understand the contemporary problems The fact that private international law oscillates between public international law and substantive municipal law as it is applied in individual countries creates considerable problems in both theory and practice I have tried to deal with these problems in the third part of my study concerning universalism and nationalism in the doctrine of private international law as well as in its fourth part which is devoted to the object and nature of this law and its place in the overall system of law The character of private international law ensuing from the plurality of municipal laws which also characterize the origin and existence of comparative jurisprudence inspired me to produce the fifth part of this study which primarily tries to explain the theoretical problems of comparative jurisprudence but does so defining its objectives and possibilities in order to underline at the same time its role in private international law and in the law of international trade **Peer-to-peer File Sharing and Secondary Liability in Copyright Law** Alain Strowel,2009-01-01 This is a book that has a lot to offer Many of its readers will benefit from the first chapters which comprehensively analyse the case law and put it in context whilst others will benefit more from the more conceptual chapters and the criticism of certain points and suggestions for a way forward contained in them Paul L C Torremans *European Intellectual Property Review* This timely volume offers a comprehensive review of case law in various jurisdictions on secondary liability for copyright infringement particularly P2P file sharing and online infringements Moreover the book includes forward looking contributions of prominent academics from the USA and the EU which provide

original perspectives on the future shape of online copyright law looking at questions such as whether it could or even should evolve towards a compensation system By combining these different avenues the book will be of particular interest to practitioners academics researchers and legal scholars involved in the field of copyright law
