Franz Rosenzweig Existence Et Philosophie:

Franz Rosenzweig's Philosophy of Existence E.R. Freund, 2013-04-17 The Star of Redemption which presents Franz Rosenzweig's system of philosophy begins with the sentence from death vom Tode from the fear of death originates all cognition of the All and concludes with the words into life This beginning and this conclusion of the book signify more than the first and last words of philosophical books usually do Taken together from death into life they comprise the entire meaning of Rosenzweig's philosophy The leitmotif of this philosophy is the life and death of the human being and not the I of philosophical idealism where man ultimately signifies for ethics no more than a point to which it ethics relates its problems as for science also he man is only a particular case of its general laws I Rosenzweig deals with the individual's actual existence that which is terminated by death he speaks of the individual's hic et nunc of his actions and decisions in the realm of concrete reality This philosophy is not an exposition of theoretical principles It is not concerned with man in general in abstract time but rather with the individual human being designated by a proper name living in his particular time Human existence in its finiteness and temporalness forms the focus in which Rosenzweig's motif can be gathered together

Franz Rosenzweig's Conversions Benjamin Pollock, 2014-08-12 Franz Rosenzweig's near conversion to Christianity in the summer of 1913 and his subsequent decision three months later to recommit himself to Judaism is one of the foundational narratives of modern Jewish thought In this new account of events Benjamin Pollock suggests that what lay at the heart of Rosenzweig's religious crisis was not a struggle between faith and reason but skepticism about the world and hope for personal salvation A close examination of this important time in Rosenzweig's life the book also sheds light on the full trajectory of his philosophical development

Judaism and Modern Western Philosophy: Collected Writings of Steven S. Schwarzschild Steven S. Schwarzschild, 2025-02-08 What are the implications of Franz Rosenzweig's quasi racist commonalities with Heidegger's thought Was Kant a Jewish thinker Does Spinoza's philosophy lend support to totalitarianism Was Marx's philosophy more shaped by Jewish cultural tradition than is typically assumed Was there a strong challenge to Strauss's reading of Maimonides already in the 1940s This volume contains a collection of Steven S Schwarzschild's 1924-1989 most important unpublished works the majority of which were found in his literary remains The essays present provocative perspectives on influential philosophical figures such as Maimonides Spinoza Kant Hegel Marx Rosenzweig Heidegger and Leo Strauss As one of the most original twentieth century thinkers in the field of Jewish philosophy Schwarzschild's analysis provides readers with new ways of understanding modern Western philosophy Jewish religious tradition and the relation between them
