Guyana, Fragile Frontier Marcus Colchester, 1997 Guyana, Fragile Frontier Marcus Colchester, 1997 Examines three environmental issues in Guyana gold mining logging of tropical forests and abuse of the indigenous people the Amerindians Describes the role of foreign enterprises in exploiting the country's natural resources Guyana Junction. Globalisation, localisation, and the production of East Indianness Johannes Gerrit de Kruijf, 2006 **Guyana** Barry Munslow, 2019-06-04 First published in 1998 this volume uses Guyana as an excellent comprehensive case study to examine various sectors operations effects upon the environment and the ways in which the sector can impact upon the vitality and development potential of other sectors The authors attempt to demonstrate how it is possible to adjust current sectoral activities for improved resource utilisation They begin in the interior looking at mining and forest resource exploitation Attention then moves towards the coast looking at agriculture fishing human settlement and service provision A review of industry transport and energy follows before examining biodiversity tourism and the Amerindian community Finally a detailed analysis is presented of the challenges to be faced in devising a sustainable development national strategy

Edges, Fringes, Frontiers Thomas Henfrey, 2018-09-14 Based on an ethnographic account of subsistence use of Amazonian forests by Wapishana people in Guyana Edges Frontiers Fringes examines the social cultural and behavioral bases for sustainability and resilience in indigenous resource use Developing an original framework for holistic analysis it demonstrates that flexible interplay among multiple modes of environmental understanding and decision making allows the Wapishana to navigate socio ecological complexity successfully in ways that reconcile short term material needs with long term maintenance and enhancement of the resource base **Living at the Borderlines** Cynthia Barrow-Giles, Don D. Marshall, 2003 The idea that the Caribbean could be devolving downward in wealth function and sovereignty has become a recurrent theme in both academic and popular literature By focusing on some of the current issues facing Caribbean nation states the editors and contributors to this volume hope to inform and contribute to the ongoing debate on the broad themes of Sovereignty and Development and the prospects for survival of Caribbean nation states in a globalised world While some of the papers seek to describe and analyse the range and complexity of the challenge to national sovereignty and public policy autonomy others focus on issues relating to small country size gender and ethnic tensions security constitutional reform and regional integration The result is a balanced perspective the contributors do not gloss over the problem faced by the region At the same time they do not present a hyper pessimistic picture of Caribbean development prospects What gives the collection a particular dynamism is the way in which the authors have challenged the terrain of political possibilities traditionally defined for small peripheral societies Extractivism and Labour in the Caribbean Dennis C. Canterbury, 2023-12-01 This book explores the impact of resource extraction and the dynamics of great powers competing for natural resources in the Caribbean The book analyzes labour capital relations between China the United States the European

Union and Russia in the Caribbean as competition increases with the arrival of non traditional sources of foreign investments in infrastructure from the East Chapters assess these dynamics through varying historical and current forms of worker community and organization resistance in the Caribbean s extractive industries from the 1970s to the present In doing so the book critically analyzes the interplay of extractive capital with labour unions community organizations management and the state particularly regarding the struggle for higher wages improved working conditions and the broader issues of extractive capitalism and underdevelopment dispossession social exclusion and environmental degradation The first book on extractivism and labour in the Caribbean and a major contribution to critical development studies literature it will appeal to policymakers as well as students and scholars in the fields of development studies development economics sociology politics and international relations

A World of Insecurity Thomas Hylland Eriksen, Ellen Bal, Oscar Salemink, 2010-02-02 Human security is a key element in the measure of well being and a hot topic in anthropology and development studies A World of Insecurity outlines a new approach to the subject The contributors expose a contradiction at the heart of conventional accounts of what constitutes human security namely that without taking non material considerations such as religion ethnicity and gender into account discussions of human security academically and in practical terms are incomplete inconclusive and deeply flawed A variety of compelling case studies indicate that in fact material security alone cannot adequately explain or fully account for human activity in a range of different settings and exposed to a variety of different threats This forceful book will expand and deepen the entire concept of human security in the process endowing it with political relevance It is an essential read for students of development studies and anthropology

The Cultural and Political History of Guyana Ivan A. Ross, 2021-09-21 The history of the Indigenous people enslaved Africans indentured Portuguese Chinese and Indian laborers provides an in depth view of the evolution of the Guyanese people It provides evidence of their strong cultural identity and reveals their ambitions sense of direction and perseverance to strive for well being and happiness in the best possible life A chain of events began in 1953 when British Guiana elected its first native born leader Dr Cheddi Jagan The British Prime Minister Winston Churchill suspended British Guiana s Constitution ordered the dissolution of the Government and imprisonment of the elected leader his wife and members of his cabinet as they were not compatible to Churchill s taste The United States of America had difficulty appreciating how different forms of government and economic systems are applied in different countries In 1961 President John F Kennedy ordered his Central Intelligence Agency to subvert the elected leader of British Guiana The leader fell and the CIA s men accomplishing their task moved on to another Thirty years later the fallen leader was again democratically elected to lead his country President Kennedy s ruthless subversion of democracy became the policy for subsequent elections of using the divisive concept of racial and ethnic segregations The racial and ethnic prejudices have affected the distribution of power opportunity and wealth and creating enduring social stratifications The children became adults with a poor understanding of how imperialism the ancestral slaves

and indentured laborers influenced their lives and their country and the powerful and lasting effects they have **The Rights of Indigenous Peoples and Maroons in Suriname** Ellen-Rose Kambel, Fergus MacKay, 1999 This volume describes and analyses the Surinamese legal system as it relates to the rights of indigenous peoples and Maroons The rights of these peoples have not been systematically addressed in this context before nor have they ever been the subjects of extensive academic research The book provides a good starting point for discussions of the rights of indigenous peoples and Maroons hopefully leading to a full recognition of their rights in Suriname
