Motorola adheres to the more safety standard for the use of its products. Proper operation of this radio will result in user exposure substantially below FCC recommended limits.

When you are in the vicinity of construction work, look for, and observe, signs indicating against radio transmissions. Radio transmission is prohibited, you must not transmit and use of the area. Furthermore, you must turn off your radio to prevent any accidental transmission.
- **DO NOT** replace or change batteries in a location where an electrical sparking may occur while installing or removing batteries and cause an explosion.
- Turn the radio off when removing or installing a battery.

Anyone intending to use a radio in a hazardous area is advised to become familiar with the subject of intrinsic safety and with Section 71 of the National Fire Code, which is extensively referred to as Article 506 of the National Electric Code. Use of anything but factory-supplied components may affect the approval and safety of the radio. Likewise, it is advised that servicing should be performed only by qualified personnel who adhere to the following Factory Mutual (FM)-required warning:
