Higher grounds Patience Adjekai Sowa, PhD, Rachel Jordan, Wendi Ralaingita, Benjamin Piper, 2021-05-23 To address chronically low primary school completion rates and the disconnect between learners skills at the end of primary school and the skills learners need to thrive in secondary school identified in many low and middle income countries more investment is needed to improve the quality of teaching and learning in upper primary grades Accordingly we provide guidelines for improving five components of upper primary education 1 In service teacher professional development and pre service preparation to improve and enhance teacher quality 2 a focus on mathematics literacy and core content area subjects 3 assessment for learning 4 high quality teaching and learning materials and 5 positive school climates We provide foundational guiding principles and recommendations for intervention design and

implementation for each component. Additionally, we discuss and propose how to structure and design pre-service teacher preparation and in-service teacher training and ongoing support fortified by materials design and assessment to help teachers determine where learners are in developmental progressions, move learners towards mastery, and differentiate and support learners who have fallen behind. We provide additional suggestions for integrating a whole-school climate, curriculum, social-emotional learning, and school-related gender-based violence prevention strategies to address the internal and societal changes learners often face as they enter upper primary.
