Essential Questions Houghton Mifflin First Grade:

Essential Questions in Adolescent Literacy Jill Lewis, 2009-05-04 In each chapter of this unique volume an exemplary teacher collaborates with a prominent scholar to present real world strategies for putting literacy research to work in grades 5-12. These lively dialogues tackle key questions in adolescent literacy including issues of motivation, critical thinking skills, content area writing, differentiated instruction, assessment, English language learning and technology. Suggestions for incorporating adolescents out of school literacies and working with reading specialists and coaches show how to build connections between the classroom and wider communities. In-depth portraits of challenges and successes in the classroom, practical instructional tips and stimulating questions for reflection make the book a valuable resource for inservice and preservice teachers.

Are First Grade Basal Reading Programs Really All that Much Alike? Linda A. Meyer, 1986

Kindergarten and First Grade Magazine, 1925 Social Studies for Secondary Schools Alan J. Singer, 2008-10-26 This popular text advocates an inquiry and activity-based view of social studies teaching that respects the points of view of students and teachers. Based in practice and experience, it offers systematic support and open, honest advice for new teachers. It is conversational, not pedantic, and provides lots of examples. While the structure and most of the topics remain largely the same as before, this Third Edition presents new lesson ideas in every chapter, especially designed to help new teachers address learning standards to work in inclusive settings and to promote literacy and the use of technology in social studies classrooms. It puts a heavier focus on what is important to know and why, includes new essays on the politics of social studies education, responds to opponents of project or activity-based social studies instruction and multicultural education with a sharpened defense of both of these approaches throughout the book. Intended as a text for undergraduate and graduate pre-service social studies methods courses, this text is also useful for in-service training programs as a reference for new social studies teachers and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice.
