*The Letter before the Spirit: The Importance of Text Editions for the Study of the Reception of Aristotle*, 2012-11-21 The Letter before the Spirit contains original articles based on the papers given at the Huygens ING The Hague 2009 on the importance of text editions for the study of the transmission of Aristotle's works in the Semitico Latin translations and their commentary tradition in the medieval world Authors underline this importance in general overviews and theoretical outlines

and present their own work on various text editions ranging from Syriac and Arabic to Hebrew and Graeco Latin and from Aristotle Avicenna and Averroes to Plotinus Michael Scot William of Moerbeke Judah ha Kohen Barhebraeus and Albertus Magnus Editors are further encouraged to cross boundaries between disciplines and study the translation tradition of Aristotle's works in its entirety *Kierkegaard's Relations to Hegel Reconsidered* Jon Stewart, 2007-08-16 Jon Stewart's study is a major re-evaluation of the complex relations between the philosophies of Kierkegaard and Hegel The standard view on the subject is that Kierkegaard defined himself as explicitly anti Hegelian indeed that he viewed Hegel's philosophy with disdain Jon Stewart shows convincingly that Kierkegaard's criticism was not of Hegel but of a number of contemporary Danish Hegelians Kierkegaard's own view of Hegel was in fact much more positive to the point where he was directly influenced by some of Hegel's work Any scholar working in the tradition of Continental philosophy will find this an insightful and provocative book with implications for the subsequent history of philosophy in the twentieth century The book will also appeal to scholars in religious studies and the history of ideas **The Essential Turing** B.
