Manual de diretrizes – uma compilação de conteúdos extraídos de resultados científicos do projeto INNOVATE, relevantes para atores envolvidos nas questões em foco Siegmund-Schultze, Marianna, 2017-05-16 O INNOVATE foi um projeto de pesquisa interdisciplinar participativo e binacional

envolvendo instituições acadêmicas do Brasil e Alemanha. Teve início em janeiro de 2012 e fim em dezembro de 2016. O Brasil e em particular o Nordeste do Brasil sofreu com um severo período de seca que teve início em 2012. A gestão e a governança dos recursos naturais enfrentam sérios desafios relacionados ao acesso à água. A mudança do uso da terra, o crescimento populacional, as mudanças climáticas e os conflitos com os múltiplos usos da água são importantes questões que exigem recorrentes adaptações a curto, médio e longo prazo. O projeto científico abordou esta complexa situação por meio de pesquisas destinadas a propor práticas e alternativas para a gestão sustentável dos recursos naturais levando em consideração as dimensões ecológicas, socioeconômicas e político-institucionais. O projeto INNOVATE teve um dos focos em toda a bacia hidrográfica do rio São Francisco e outro com destaque para uma porção semiárida da bacia hidrográfica do reservatório de Itaparica e a região de seu entorno. Pesquisadores com diferentes experiências trabalharam dentro de suas áreas de conhecimento em grupos interdisciplinar e em conjunto com as partes interessadas transdisciplinar. Este Manual de Diretrizes é uma compilação de relevantes conteúdos para atores extraídos de resultados das pesquisas científicas. A maioria das recomendações apresentadas pode ser adaptada como princípios e padrões para reservatórios e regiões semiáridas do Nordeste do Brasil e outras partes do mundo. INNOVATE was a comprehensive collaborative and binational research project. It ran from January 2012 through December 2016. Brazil and Brazil's Northeast in particular suffered from a severe drought period from 2012 onwards. Management and governance of natural resources faced serious challenges related to access to water. Important long-term drivers that call for recurrent adaptation of actions are land use change, population growth, climate change and conflicts from the multiple uses of water. The scientific project addressed this complex situation through research aimed at suggesting practices and pathways towards ecologically and socioeconomically sound management of land, water and biodiversity. The INNOVATE project had one focus on the entire watershed of the São Francisco River and another one on a portion of the watershed, the Itaparica Reservoir and the semi-arid area north of the artificial lake. Researchers with different backgrounds worked within their disciplines in groups, interdisciplinary and together with stakeholders, transdisciplinary. The Guidance Manual is a compilation of actor-relevant content extracted from the scientific research results. Most recommendations put forward can be adapted as principles and standards for reservoir and semi-arid regions elsewhere in the world. INNOVATE war ein umfassendes binationales Verbundforschungsprojekt zwischen Brasilien und Deutschland mit einer Kernlaufzeit von Januar 2012 bis Dezember 2016. Im Jahr 2012 begann eine besonders schwere Dürreperiode, welche nicht nur den sowieso trockenen Nordosten Brasiliens traf, sondern auch weitere Teile des Landes. Die stark eingeschränkte Wasserverfügbarkeit wurde zum zentralen Thema von Management und Governance der natürlichen Ressourcen. Wichtige langfristige Treiber, welche eine kontinuierliche Anpassung des Handelns notwendig machen, sind Landnutzungsänderungen, Bevölkerungswachstum, Klimawandel und Konflikte um die verschiedenen Wassernutzungsansprüche. Im Projekt wurden Praktiken und Ansätze zur ökologisch und sozial-konomisch vertretlichen Bewirtschaftung von Wasser, Land und Biodiversität entwickelt.

Das Studiengebiet des INNOVATE Projekts umfasste dabei das gesamte Wassereinzugsgebiet des São Francisco Flusses wobei Feldforschung im semi ariden Umland nördlich des Itaparica Stausees stattfand. Forscher und Forscherinnen aus verschiedenen Disziplinen arbeiteten disziplinär in Gruppen interdisziplinär sowie gemeinsam mit Stakeholdern transdisziplinär. Das vorliegende Handbuch ist eine Zusammenstellung von Stakeholder relevanten Empfehlungen welche aus den Ergebnissen der wissenschaftlichen Forschung abgeleitet wurden. Die meisten hier vorgestellten Handlungsempfehlungen können weltweit an vergleichbare Stausee und semi aride Regionen angepasst werden.

When people should go to the book stores, search initiation by shop, shelf by shelf, it is in point of fact problematic. This is why we allow the book compilations in this website. It will entirely ease you to see guide **Etrex Garmin Gps Manual** as you such as.

By searching the title, publisher, or authors of guide you essentially want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best area within net connections. If you ambition to download and install the Etrex Garmin Gps Manual, it is utterly easy then, back currently we extend the associate to buy and create bargains to download and install Etrex Garmin Gps Manual suitably simple!
