Meet the GRE

The Test Breakdown

The sections

The GRE consists of two 75-minute Verbal Reasoning sections, one Verbal Reasoning section, and one Quantitative Reasoning section, which can be either before or after the Verbal Reasoning section. In addition, there are two short essay writing assignments in the Analytical Writing Assessment (AWA) section of the GRE. The experimental section will be placed toward the end of the test. Each section, except sections in the experimental area, has about 20 minutes for you to do the test. With the overall GRE Verbal and Quantitative scores can range from 130 to 170. The scores are scaled from 0 to 30 in half-point increments.

Number of questions and time limit

The GRE Quantitative section consists of twenty questions each. You will be given thirty minutes to complete each section. The Verbal section also consists of twenty questions each. You will have just thirty minutes to complete these sections.

GRE Quantitative overview

The new sections in this category are made up of approximately equal proportions of quantitative problems and discrete data presentation problems. Questions are 1 to 3 items, are 2 to 3 items, and are 2 to 3 items. Quantitative questions include the following types: multiple choice, numeric entry, and text entry. Quantitative questions will be included starting on page 22. No longer every other section will be included.
