 Engines and Mechanisms of the University of Palermo Italy one of the most important and heterogeneous collections of
 engines and mechanisms in Europe the first one in Italy to be awarded as Mechanical Engineering Heritage Collection by the
 American Society of Mechanical Engineers Thanks to its numerous items this book showcases the evolution of fluid
 machinery and applied mechanics from steam engines up to turbojet engines as well as hybrid system giving several
 technical and historical information about its most important engines which are described in detail through pictures and
 original drawings The Museum preserves and makes freely available this almost unique collection of more than 300 engines
 didactic models and technical equipment including various unique exemplars continuously enhanced thanks to donations and
 through restoration activities carried out in a dedicated laboratory of the Museum As a result of a great deal of philological
 research carried out on the documents collected in the Museum s archive as well as in other institutional and corporate
 historical archives this book serves as the reference tool of the collection and more generally of the Museum itself Despite
 the technical subject and the academic environment in which it was created the catalogue is realized to be read even by non
 experts offering different levels of detail the first of which is the historical economic and in certain cases even sporting
 context related to an engine such as the vehicle for which it was designed and used **The Illustrated Book of Classic &
