Contemporary Trends in Hispanic and Lusophone Linguistics Jonathan E. MacDonald, 2018-02-15

Contemporary Trends in Hispanic and Lusophone Linguistics offers a panorama of current research into multiple varieties of Spanish from several different regions: Mexico, Puerto Rico, Spain, Costa Rica, Argentina, Bolivia, Peru, Honduras, Catalan, Brazilian Portuguese, as well as varieties in contact with English and Purpecha. The first part of the volume focuses on the structural aspects and use of these languages in the areas of syntax, semantics, sociolinguistics, diachrony, phonetics, phonology and morphology. The second part discusses the effect of interacting multiple grammars, namely first language acquisition, second language acquisition, varieties in contact and bilingualism. As a whole, the contributions in this volume provide a methodological balance between qualitative and quantitative approaches to Language and in this way represent contemporary trends in Hispanic and Lusophone linguistics.

Flipped Classrooms with Diverse Learners Zachary Walker, Desiree Tan, Noi Keng Koh, 2020-06-29 This book addresses the background of classroom flipping, explores the theoretical underpinnings for why flipping works, and shares current success stories in practice. It provides diverse international examples of classroom flipping for all ages, includes discussions of the authors' studies in the context of the existing research, and illustrates the impact that classroom flipping has had across a range of educational settings, instead of focusing on a specific domain or learner context. Intended as a handbook for practitioners, the analysis of commonly used, highly effective techniques for learners of various ages fills a major gap in the literature. It offers a valuable resource for educators, helping them make the flipped learning experience an impactful and meaningful one.
