Tony Muschara, Ron Farris, Jim Marinus, 2021-11-18 Critical Steps happen every day at work and at home purposefully Work
does not happen otherwise If an operation has the capacity to do work then it has the capacity to do harm Work is energy
directed by human beings to create value But people are imperfect we make mistakes and sometimes we lose control of the
work Therefore work is the use of force under conditions of uncertainty A Critical Step is a human action that will trigger
immediate irreversible and intolerable harm to an asset if that action or a preceding action is performed improperly Whether
the human action involves clicking on a link attached to an e mail message walking down a flight of stairs with a newborn
baby in arms engaging the clutch on a gasoline driven chain saw or administering a medication to a patient in a hospital
these all satisfy the definition of what constitutes critical risks in our daily lives professionally or personally The overarching
goal of managing Critical Steps is to maximize the success safety reliability productivity quality profitability etc of people s
performance in the workplace to create value for the organization without losing control of built in hazards necessary to
create that value **Practices and Performance Measures for Local Public Agency Federally Funded Highway**
