Little Criminals David Cohen,2011-03-04 A unique and powerful look at a New Zealand experiment in social welfare gone wrong From the late 1950s to the mid 1980s when most of them were closed down the New Zealand government maintained 26 residences for children and teenagers Some of those children had the bad fortune to come from families with large numbers of children and who couldn't cope financially Plucking a child out and putting him in a home to ease the burden was seen as a solution Other children in came from profoundly dysfunctional backgrounds or were profoundly dysfunctional themselves Could putting them all together in close quarters supervised by staff with mostly inadequate training ever deliver a positive outcome In this powerfully written book David Cohen who himself spent time at Epuni Boys Home in the 1970s

argues not He tracks down former residents and staff members many of whom argue that boys home stints led boys to rather than away from lives of crime It also led some into abuse Evocatively and originally written Cohen s research takes him back to the era of moral panic about juvenile delinquency that drove the creation of the homes and traces the sea change in ideas about the care of troubled adolescents especially Maori who were hugely over represented in the muster that spelled their eventual demise Totally gripping it is a unique insider account of a failed experiment Paideuma ,1992 Mitteilungen zur Kulturkunde

The Amorites and the Bronze Age Near East Aaron A. Burke,2021-01-27 In this book Aaron A Burke explores the evolution of Amorite identity in the Near East from ca 2500 1500 BC He sets the emergence of a collective identity for the Amorites one of the most famous groups in Ancient Near Eastern history against the backdrop of both Akkadian imperial intervention and declining environmental conditions during this period Tracing the migration of Amorite refugees from agropastoral communities into nearby regions he shows how mercenarism in both Mesopotamia and Egypt played a central role in the acquisition of economic and political power between 2100 and 1900 BC Burke also examines how the establishment of Amorite kingdoms throughout the Near East relied on traditional means of legitimation and how trade warfare and the exchange of personnel contributed to the establishment of an Amorite koin Offering a fresh approach to identity at different levels of social hierarchy over time and space this volume contributes to broader questions related to identity for other ancient societies
