Wolfe, 2000     *White Market Drugs* David Herzberg, 2020-10-23 The contemporary opioid crisis is widely seen as new and unprecedented Not so It is merely the latest in a long series of drug crises stretching back over a century In *White Market Drugs* David Herzberg explores these crises and the drugs that fueled them from Bayer's Heroin to Purdue's OxyContin and all the drugs in between barbiturate goof balls amphetamine thrill pills the love drug Quaalude and more As Herzberg argues the vast majority of American experiences with drugs and addiction have taken place within what he calls white markets where legal drugs called medicines are sold to a largely white clientele These markets are widely acknowledged but no one has explained how they became so central to the medical system in a nation famous for its drug wars until now Drawing from federal state industry and medical archives alongside a wealth of published sources Herzberg re connects America's divided drug history telling the whole story for the first time He reveals that the driving question for policymakers has never been how to prohibit the use of addictive drugs but how to ensure their availability in medical contexts where profitability often outweighs public safety Access to white markets was thus a double edged sword for socially privileged consumers even as communities of color faced exclusion and punitive drug prohibition To counter this no win setup Herzberg advocates for a consumer protection approach that robustly regulates all drug markets to minimize risks while maintaining safe reliable access and treatment for people with addiction Accomplishing this requires rethinking a drug medicine divide born a century ago that unlike most policies of that racially segregated era has somehow survived relatively unscathed into the twenty first century By showing how the twenty first century opioid crisis is only the most

recent in a long history of similar crises of addiction to pharmaceuticals Herzberg forces us to rethink our most basic ideas about drug policy and addiction itself ideas that have been failing us catastrophically for over a century *Proceedings of the ...
