Mining Morality William P. George, 2019-10-11 Employing self sharpening tools found in the work of theologian and philosopher Bernard Lonergan Pope Francis encyclical *Laudato si* and international law William P George brings mining to personal and collective moral awareness by prospecting for ethics at selected sites 1 Butte Montana the Richest Hill on Earth once bound to Chuquicamata Chile by a company that spanned two continents and nearly owned a state 2 the tiny island nation of Nauru called Pleasant Island until it was devastated by phosphate mining and the breaking of a sacred trust by foreign powers 3 the deep seabed governed by the United Nations Law of the Sea a constitution for the oceans that regards much of the resource rich seabed as humankind's common heritage 4 Africa with its uranium mines but also its conflicts over what being nuclear means in the wake of colonialism apartheid and Hiroshima and 5 mineral rich asteroids speeding through space where mining rights are contested even as space entrepreneurs look to become the world's first trillionaires George introduces readers to remarkable moral miners the women of Butte and Chuquicamata a World Court judge from Sri Lanka and the Rocket Boys of Coalwood West Virginia to name a few and leads them to consider not only the morality of mining what's good and not so good about resource extraction but also the mining of morality a venture that Socrates called the examined life

Pope Francis, Conscience of the World John Raymaker, Gerald Grudzen, 2019-11-12 Why is it that Pope Francis is admired by so many What gives him the uncanny ability to speak with young people in language familiar to them In this book John Raymaker and Gerry Grudzen explore the life and writings of Pope Francis which have a prophetic visionary ability to speak to important issues of the day The authors evaluate how Pope Francis encounters with religious leaders of other faiths have broken new ground to

help unite mankind They reach back into Christian history to explore the teachings of such Catholic mystics as Thomas Merton while also delving into the beliefs of Islamic and Buddhist mystics to demonstrate how well the pope is in touch with a spirituality that can speak to those seeking the truth In its final chapters the book examines how the pope endorses the work of Christians who live their faith in small Christian communities and reveals how such communities can strengthen parish life in various parts of the world Like St Francis his namesake and like Teilhard de Chardin before him the pope has an appropriate vision to rebuild God s Church in a transitional age His writings have focused on caring for the earth and preaching the good news of the gospels in a way that and allows him to reach young people in need of joy as they face an uncertain future He is the Conscience of the World *Will Pope Francis or a Successor Call a Vatican III Council?* John Raymaker, Gerald Grudzen, 2020-06-30 In 2008 the authors wrote *Steps toward Vatican III* which explored developments occurring in the Catholic Church including its teachings on social justice interreligious dialogue and Small Christian Communities This update of *Steps* explores how Pope Francis has developed such themes in original ways in his encyclicals and in his use of synodal consultations For example in his Encyclical *Laudato Si* the pope seeks to lead us into the mysteries of the universe of creatures and the harmony of creation It helps us reflect on the universal communion of nature Calling for a global ecological policy and a cooperative approach the pope warns us that unless we respect nature the entire planet and humanity will face drastic consequences In his meetings with economists and entrepreneurs the pope has proposed a pact for renewing the economy to counteract the asocial aspects of modern business practices He has discussed some of the most complex problems in today s world from safeguarding the environment to courageously committing oneself to rethink the economic paradigms of our time Young people in particular have responded with enthusiasm to Pope Francis initiatives The book notes how some traditional Catholics have opposed the pope but it argues that in fact the pope is more traditional than his critics for he insists on going back to Jesus own teachings The new ongoing crises such as the breakdown and rise of new ideologies terrorism massive advances in the sciences and in technology as well as fundamental shifts in gender relations are further factors considered in the book Indeed the world is now radically different from the world of the early 1960 s when Vatican II Council was held Due to these many radical changes the book suggests the need for a Vatican III which would consolidate the Church s global outreach on every continent
