The Political Economy of Cooperatives and Socialism Bruno Jossa,2019-10-10 This book argues that capitalism cannot be said to be truly democratic and that a system of producer cooperatives or democratically managed enterprises is needed to give rise to a new mode of production which is genuinely socialist and fully consistent with the ultimate rationale underlying Marx s theoretical approach The proposition that firms should be run by the workers on their own was endorsed by John Dewey the greatest social thinker of the twentieth century but is also shared by Marxists such as Anton Pannekoek Karl Korsch Angelo Tasca Antonio Gramsci and Richard Wolff This book explores the history of this argument taking in concepts from economic and political thought including historical materialism cooperation utopianism and economic democracy The book will be of significant interest to scholars and students of political economy Marxism socialism history of economic thought and political theory In the Name of Liberty Mark R. Reiff,2020-04-30 For years now unionization has

been under vigorous attack Membership has been steadily declining and with it union bargaining power As a result unions may soon lose their ability to protect workers from economic and personal abuse as well as their significance as a political force In the Name of Liberty responds to this worrying state of affairs by presenting a new argument for unionization one that derives an argument for universal unionization in both the private and public sector from concepts of liberty that we already accept In short In the Name of Liberty reclaims the argument for liberty from the political right and shows how liberty not only requires the unionization of every workplace as a matter of background justice but also supports a wide variety of other progressive policies *Law, Economics and Evolutionary Theory* Peer Zumbansen,Gralf-Peter

Crisis and Class War in Egypt Sean F. McMahon, 2016-10-15 In 2011 capital's crisis erupted in Egyptian society This eruption and subsequent politics have been misrepresented as revolutionary as the working class was and is increasingly so devalued and disempowered In *Crisis and Class War in Egypt* Sean F McMahon critically analyses Egypt's recent political history He argues that the so called revolution was the appearance of capital's destruction of the value of the Egyptian working class and an existential crisis for capital In response productive capital in the form of the military used disposed of and replaced its junior partners in governing first the predatory capital of the Mubarak state with the commodity capital of the Muslim Brotherhood and then commodity capital with the finance capital of the Gulf Cooperation Council These reconfigurations have been expressed in all manner of reactionary governmental arrangements including constitutions legislation and currency reform Extending today's analysis into the near future McMahon sees the war of Egyptian society intensifying and increasingly violent lives for Egyptian workers
