

☐ 3. Make sure you are familiar with terms of reference: anterior, posterior, dorsal, ventral. In addition, you'll need to know the following terms:

Medial: toward the middle or middle of the body

Lateral: toward the outside of the body

Proximal: close to a point of reference

Distal: farther from a point of reference

Label the anterior (front), posterior (rear), dorsal (back) and ventral (underside) of the pig. →

☐ 4. Gestation for the fetal pig is 112-115 days. The length of the fetal pig can give you a rough estimate of its age.
 2.5 cm = 40 days | 4 cm = 50 days | 22 cm = 100 days | 30 cm = birth

What is the length of your fetal pig? _____ How old is your fetal pig? _____

☐ 5. Observe the feet of the pig. How many toes are on the foot? _____

☐ 6. Examine the eyes and the upper and lower eyelids. In addition, there is a third eyelid, the nictitating membrane, which covers the anterior portion of the eye and helps to clean it. You need to make a small incision and open the third eye lid to see this.

☐ 7. Locate the snout. The paired external nares (nostrils) located on the snout as the passageway for air.

☐ 8. Locate the external ear, or pinnae, which serve to channel a sound wave into the small opening known as the external auditory meatus.

☐ 9. Open the pig's mouth and locate the hard and soft palate on the roof of the mouth. Can you feel your own hard and soft palate with your tongue?

Note the taste buds (also known as sensory papillae) on the side of the tongue. Locate the esophagus at the back of the mouth. Feel the edge of the mouth for teeth.

Does the fetal pig have teeth? _____ Are humans born with teeth? _____

☐ 10. Carefully lay the pig on one side in your dissecting pan and cut away the skin from the side of the face and upper back to expose the subcutaneous muscles that open and close the mouth, lymph nodes, and salivary glands.

The salivary glands have an appearance like chewing gum, and are often lost if you cut too deeply.

Dissect your specimen [\(watch the video below about dissection\)](#)

☐ 11. Use a scalpel to cut the angles of the jaw so that you can open the mouth up far enough to view the back of the tongue. Locate the epiglottis, a cone-shaped structure which closes when a pig swallows. The small opening in the center of the epiglottis is the glottis and it leads to the trachea and then to the lungs. Make sure that you can distinguish the glottis from the esophagus.

☐ 12. The pharynx is the cavity (space) in the back of the mouth – it is the junction for food (esophagus) and air (trachea).

Science Education as a Pathway to Teaching Language Literacy ,2010-01-01 In this era of mandated high stakes and standardized testing teachers and schools officials find themselves struggling to meet the demands for improved student achievement At the same time they are also expected to teach all subjects as required by national and state curriculum standards Because of these competing demands science is not even taught or taught less often in order to make more room for mathematics and language arts drill and practice and teaching to the test Anyone concerned with providing students with a well rounded education should ask whether these drastic measures even if they were to show improvement in achievement justify denying children access to the unique opportunities for intellectual growth and social awareness that the effective instruction of science provides Will these students have enough exposure to the science curriculum to prepare them to do well later in middle and high school How is this current situation going to help ameliorate the pervasive achievement gap in science and how is it going to motivate students to pursue science related careers The authors of this book believe that instead of sacrificing the science curriculum to make more time for drill and practice in mathematics and language arts what should be done is to connect current research on literacy and science instruction with effective pedagogy Therefore this volume provides fresh theoretical insights and practical applications for better understanding how science can be used as a pathway to teaching literacy and hence as a pathway to improving teachers practice and students learning

Fetal Pig Dissection Guide ,1993 Anatomy and Physiology Gail Jenkins,Christopher Kemnitz,Gerard J. Tortora,2006-02-17 A text with integrated multimedia

They Came to Heal Us Elmer M. Haygood,2011-06-24 This book reveals the non traditional work and characteristics of angels as they labored to save mankind after a great disaster in the ancient world of Pangaea Man had once again incurred the wrath of God through disobedience at the Tower of Babel and suffered the consequences of catastrophic geographical changes that rivaled the Great Flood of Noahs time Mankind then needed healing on a grand scale worldwide which was accomplished through the dispatch of legions of angels from God This outpouring of angels to minister to the ills of men brought them from the brink of

extinction during a period that is memorialized in stone These stone memorials are located throughout the world in such places as Stonehenge in England and the Carnac Stones in France The masses of people created grand monuments to show their gratitude for the immense healing campaign by the angels The worldwide campaign was in later years transitioned to seasonal visitations as recorded in the Bible in such stories as the healing at the Pool of Bethesda This book will highlight the very unfamiliar and very non traditional methods of operation by angels as they healed traveled and communicated to achieve their goal of saving mankind **Encounters with Life** Hans Wachtmeister,Larry Scott,2006-01-01 This laboratory manual is designed for use in a one or two semester introductory biology course at the college level and can be coordinated with any general biology textbook Each exercise is a self contained unit with clearly stated objectives a variety of learning experiences and thought provoking review questions **Catalog of Copyright Entries. Part 1. [B] Group 2. Pamphlets, Etc. New Series** Library of Congress. Copyright Office,1937 *More Biology in the Laboratory* Doris R. Helms,1989-08-15 This book is designed to encourage and give direction to the natural urge to inquire about living things what they are and how and why they work as they do One intention in writing this manual was to assure that learning in the laboratory need not depend on expensive elaborately furnished facilities Thus requirements for materials and equipment have been kept to a minimum Pref **Catalog of Copyright Entries** ,1936-07
