Globalization or Regionalization of the American and Asian Car Industry? M. Freyssenet, K. Shimizu, G. Volpato, 2003-04-15 The automobile sector is one of the most archetypal global industries and is seen by many as one of the main drivers behind the homogenisation of world markets due to firms internationalization strategies and the social practices that firms impose This book argues that this is not entirely the case due to the heterogeneity of firms and the diversity of strategies pursued It highlights the diversity and forms of internationalization and the preference for regionalization rather than globalization that has occurred over the past decade This book looks specifically at the American and Asian car industry

Invisible Trillions Raymond W. Baker, 2007-01-01 Essential reading for anyone truly interested in saving democracy from the predations of kleptocracy and plutocracy Charles Davidson The Journal of Democracy This book expands our understanding of the financial secrecy system dominating capitalism today and shows how we can create accountability to restore our democracy Over the last half century capitalism has created the means for trillions of dollars euros pounds and other stores of wealth to move invisibly beyond the control of central bankers law enforcement agents and international institutions With an entire financial secrecy system now dominating capitalist operations riches flow inexorably upward and

accelerate economic inequality And rising inequality is directly imperiling weakening obstructing and degrading democracy This book is not a screed against capitalism it is a call for capitalism to return to its roots reenergizing its synergies with democracy Raymond Baker writes Democratic capitalism is in my judgment the best system yet devised in political economy but dysfunctions within its capitalist component are undermining the two part system Baker explains the tax havens secrecy jurisdictions disguised corporations anonymous trusts fake foundations regulatory loopholes money laundering techniques and more that make up the financial secrecy system But he goes beyond the what to the why examining the motivations driving the system that generates and shelters trillions of dollars that could go toward spreading wealth generating public goods and protecting the environment Going deeper Baker illustrates how these realities further corrode the commonwealth with chapters devoted to the facilitating activities and impacts of banks corporations enabling lawyers and accountants governments and international institutions and concluding with the limiting role played in policy silos that are missing the bigger picture Finally he provides specific pragmatic measures to reset capitalism so that it once again contributes to shared prosperity and sustained democracy This is a magisterial treatment of an issue that is at the root of so many problems that plague our nation and the world today

Corporate Cultures And Global Brands Albrecht Rothacher, 2004-10-25. This interesting book covers the development of 19 prominent European, American, and Asian companies from their humble origins to their current status as global operators. The case studies review the changes of their corporate structures and the successes and failures of their marketing and branding strategies. A wide range of business sectors is covered, including foodstuffs, drinks, retail, apparel, electronics, aviation, cars, and entertainment. Of prime importance for corporate survival and growth in all sectors and countries is the crucial shift from owner/founder-run companies to consolidated management-led corporations. The wide range of sectors and countries of origin featured also permits valid conclusions on the persistence of distinctive national management styles and brand images. This clearly proves that there are corporate limits to globalization which companies during thoughtless cross-national mergers ignore at their peril.

Reflexivity Karen Lumsden, 2019-01-15. Reflexivity is valuable in social research because it draws attention to the researcher as part of the world being studied and reminds us that the individuals involved in our research are subjects, not objects. By being reflexive, we acknowledge that we cannot be separated from our biographies. This volume reviews key debates concerning reflexivity in theory, methods, and practice. It mounts a defence of reflexivity against new materialist and post-qualitative critiques and the pressures exerted on scholars from the neoliberal marketized university system which privileges fast academia at the expense of slow, reflective scholarship. While defending reflexivity, this book also identifies issues which plague mainstream sociological operationalizations of a positivistic form of reflexivity. It argues for the extension of reflexivity into domains otherwise neglected in public accounts and a shift from reflexivity as an individualized quality of the researcher used to judge peers and navel gaze to a feminist, collaborative, reflexive sensibility which is mindful of the wider contexts shaping the construction of knowledge, experience, and of the role of research communities. Providing examples of reflexivity in action from academics at different stages of their careers, Reflexivity will appeal to students and researchers interested in fields such as Sociology, Qualitative Research Methods, Criminology, Ethnography, and Ethics of Research.

No Half Measures: A Life In Wine, Food And Travel Jeffrey Benson, 2016-04-15. Following on from Jeffrey Benson's first volume of travel diaries, *One More for the Road*, comes a second instalment as one of the food and drink world's intrepid voyagers continues on his way. *No Half Measures* whisks the reader to the luxury resorts of the Indian Ocean, tasting cutting-edge cuisine and fine wines on five continents and celebrates all the cultural diversity the world still has to offer. As before, Benson gives us both barrels of modern travel experience: the vintage and the vin ordinaire, the sublime and the ridiculous, in generous and richly evocative accounts of journeys among family and friends, wine students and superstar chefs. There are glorious gastronomic moments and glimpses of the splendour of the natural world as well as comic interludes and the odd despairing grumble, all in the company of our witty and humane chaperone. Fasten your seat belts, it's going to be

a thoroughly enjoyable ride
