

14 A travel agent records the duration and cost of the 15 flights he sold on one day. The data for the first 13 flights are plotted on the scatter diagram.

(a) The data for the final two flights is:

Duration	210 minutes	1 hour 40 minutes
Cost	£130	£80

Plot these flights on the scatter diagram. [2]

(b) The cost of one of the 15 flights had been discounted in a sale. Circle the most likely flight on the scatter diagram. [1]

(c) (i) Draw a line of best fit on the scatter diagram. [1]

(ii) Use your line of best fit to estimate the duration of a flight costing £90.

(c)(ii) minutes [1]

(d) Explain why the travel agent should not use his records to estimate the cost of a 7 hour flight.

Nicholson**

Gcse Statistics Past Papers:

Statistics GCSE for AQA Jayne Kranat, Brian Houseden, James Nicholson, 2001 Aims to provide a match for the AQA Statistics specification This book is suitable for both Foundation and Higher tier candidates It provides practice at the statistical techniques needed for the exam and integrated project ideas and a separate coursework unit that aims to help students develop their skills in this important area *Statistics* Graham Newman, 2004 The Pack includes mapping to the specification detailed Teaching notes for each chapter with examiners hints and tips Coursework guidance project suggestions and information sources to assist with coursework preparation are all provided A range of free resources are available on our dedicated Statistics website providing additional support for this subject Dedicated Key Maths Statistics website Edexcel GCSE Statistics Student Book Gillian Dyer, Jane Dyer, Keith Pledger, David Kent, Gordon Skipworth, 2009-04-01 This text contains practice exam papers for foundation and higher exactly matched to the new specification Three revision exercises featuring past exam questions consolidate learning on groups of topics are included

GCSE Mathematics - A Pocket Guide for Re-takers and Adults Mick Price, 2024-05-24 As its title suggests this book has been devised by author Mick Price as an essential guide for those revisiting Mathematics at GCSE level Crafted from years of experience and class tested materials it serves as a unique revision tool tailored for both FE college students and adults seeking to improve their previous grades or refresh long forgotten knowledge Stripping back the complexities of mathematics this book focuses on the fundamentals needed to achieve a grade 4 without overwhelming its readers with the entirety of KS4 content GCSE Mathematics promises accessibility and convenience making it an indispensable companion for both classroom learning and self study Inside you will find a blend of theoretical essentials practical real life examples and exercises designed for both younger and more mature learners all presented in a straightforward uncondescending manner GCSE Mathematics is not just a book it is a tool for success always within reach *GCSE Maths* David Bowles, Paul Metcalf, 2002 Written specifically for the Foundation and Intermediate tier GCSE for the AQA Modular GCSE Specification B This clearly presented book will help all students looking to achieve a grade C in GCSE maths An ideal stand alone resource for students doing the GCSE course in one year including students resitting modules AQA GCSE (9-1) PE Second Edition Ross Howitt, Mike Murray, 2021-05-28 Written by leading PE specialists students will be guided through the AQA GCSE 9 1 PE specification topic by topic and have opportunity to improve their understanding analysis evaluation and application skills through exam style questions and detailed insight to the NEA Approved by AQA this Student Book develops understanding with thorough coverage of topics and contains summaries diagrams and key questions to direct thinking and aid revision provides clear definitions of key terms technical vocabulary and concepts including those that students have struggled the most builds sound knowledge and analysis evaluation and application skills through detailed support and exam style questions stretches challenges and encourages independent thinking and a deeper understanding through activities stimulus

material and suggestions for further reading **The Art of Uncertainty** David Spiegelhalter, 2015-03-04 Named a Best Book of the Year by Forbes and The Economist From our greatest living statistical communicator Tim Harford comes an invaluable data driven guide for understanding and learning to embrace risk and uncertainty in our daily lives How dangerous is our diet How much of sports falls into the realm of luck When authorities categorize a given event as highly likely how likely is that really Whether we re trying to decide if the benefits of a new medication are worth the chance of side effects or if artificial intelligence truly threatens humanity our lives are riddled with uncertainties both everyday and existential yet it can be difficult to know how to properly weigh all those unknowns Luckily for us renowned statistician David Spiegelhalter has spent his career dissecting data to resolve the apparently random and decode the many decisions we face with imperfect information In *The Art of Uncertainty* he shows how we can become better at dealing with what we don t know to make smarter choices in a world so full of puzzling variables In lucid lively prose Spiegelhalter guides us through the principles of probability illustrating how they can help us think more analytically about everything from medical advice to sports to climate change forecasts He demonstrates how taking a mathematical approach to phenomena we might otherwise attribute to fate or luck can help us sort hidden patterns from mere coincidences better evaluate cause and effect and predict what s likely to happen in the future Along the way we learn how a misinterpretation of a probability contributed to the infamous Bay of Pigs fiasco why a ship twice the size of the Titanic sank without a trace and why we can be so confident that no two properly shuffled decks of cards have ever been in the same order Sparkling with wit and fascinating real world examples this is an essential guide to navigating uncertainty while also retaining the humility to admit what we don t or simply cannot know **STP National Curriculum Mathematics** Linda Bostock, 1999 This book is designed to prepare pupils for intermediate tier GCSE with all UK examination boards this book presents text examples exercises practical work investigations and puzzles Summaries and revision exercises are phased throughout the book for extra consolidation
