

ECONOMICS FINAL EXAM STUDY GUIDE

FUNDAMENTAL CONCEPTS

1. An individual decides to pay \$8 to see a movie instead of buying an \$8 meal. What is the opportunity cost of the movie?
2. The idea that producers make goods that consumers like and are willing to buy is a principle of which economic system?
3. What basic economic problem do all nations have in common regardless of income?
4. How do entrepreneurship and labor interact?
5. How are the basic economic questions answered in a market economy?
6. In which economic system does the government own the means of production?
7. What are the payments for land, labor, capital, and entrepreneurship respectively?
8. Give an example of a capital investment for a retail store.
9. Review the circular flow model. Know all interactions and flow of wages to workers, the product market, and the resource market, flow of money (payment) and flow of goods
10. What is voluntary exchange and in what type of economic system is it used?
11. What is a rational decision? Give an example in terms of making a choice between two different actions.
12. Why does every economic decision involve an opportunity cost?
13. Review the Production Possibilities Curve. What could cause a shift to the right (increase) and what could cause a shift to the left (decrease)?
14. Know all points along the PPC, outside the curve, and inside the curve and what they represent.

MICROECONOMICS

15. Minimum Wage is an example of what type of governmental price control?
16. List 5 examples of Microeconomic principles:
17. In which type of market structure does a firm have the most control over price?
18. Which form of business organization is least able to benefit from specialization but is easiest to organize?
19. What type of market structure is characterized by price leadership and interdependence?
20. Give an example of a microeconomic calculation:
21. What is the market clearing price (aka: _____) and be able to recognize it on a supply and demand graph
22. The automobile industry is controlled by a few companies whose pricing decisions are interdependent. This is an example of what type of market structure?
23. What is an important feature of a monopolistic competition? Give some examples of products of this type?
24. Suppose the government set a price ceiling on peanut butter of \$1.50 and the equilibrium price is 2.00. What would the result be? Draw a graph and explain the new Quantity Demanded and Quantity Supplied?
25. Give an example of a technological monopoly?
26. If the price of gas increases slightly, the demand for gas will NOT change very much. This is an example of _____ demand.

MACROECONOMICS

27. When aggregate demand exceeds aggregate supply, what is the most immediate result?
28. Define structural unemployment and give an example.
29. If the government uses fiscal policy designed to end a recession, this is called _____ policy and two actions the government could take would be to:
1) _____ 2) _____
30. The main function of the Federal Reserve System is:
31. Define progressive tax and give an example
32. Define regressive tax and give an example
33. In what situation would the Federal Reserve buy securities and lower discount rate.
34. Define budget deficit:
35. Define budget surplus

Grade 1economic Final Exam:

Fossil Energy Update, 1981 **Economics, Volume 1: Economic Principles** Frank A. Fetter, 2020 Professor Fetter's *Economic Principles* is the first half of a two volume treatise on economics The second half *Modern Economic Problems* deals with the applications of principles In general Professor Fetter's theory may be described as mechanistic and Austrian To call it mechanistic signifies that like the usual type of economic theory it treats the industrial and business system as being somewhat analogous to a mechanism in that the operations of this system are explained in terms of practically contemporaneous causes and effects without reference to the changes in its structure which take place with the passage of time Here mechanistic is substituted for the less appropriate deductive as a description of the classical type of theory Mechanistic explanation contrasts especially with genetical explanation though it seems doubtful if a precise line can in the last analysis be drawn between the two Fetter's book shows a pride in its own novelties but as far as methodology is concerned it is as mechanistic as the work of Ricardo or the theory of interest of Irving Fisher or the theory of distribution of John Bates Clark And this is as it should be For economics is best described as the study of the structure and action of the industrial system with an object in view namely that of making us good judges of questions of the policy of the state or of any body of persons such as organized labor or capital toward the industrial system That is the touchstone of importance and relevancy in economics is applicability to questions of public policy It is on the strength of this test of relevancy that Fetter's methodology is pronounced the right one It is also merely the dominant methodology of all the leading general texts past and present
