Validating Technological Innovation David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders. **Teacher in Zimbabwe**, 2014

Adaptive Collaborative Management in Forest Landscapes Carol J. Pierce Colfer, Ravi Prabhu, Anne M. Larson, 2021-12-12 This book examines the value of Adaptive Collaborative Management for facilitating learning and collaboration with local communities and beyond, utilising detailed studies of forest landscapes and communities. Many forest management proposals are based on top-down strategies such as the Million Tree Initiative's Forest Landscape Restoration (FLR) and REDD, often neglecting local communities. In the context of the climate crisis, it is imperative that local peoples and communities are an integral part of all decisions relating to resource management. Rather than being seen as beneficiaries or people to be safeguarded, they should be seen as full partners. Adaptive Collaborative Management is an approach which prioritises the rights and roles of communities alongside the need to address the environmental crisis. The volume presents detailed case studies and real-life examples from across the globe, promoting and prioritising the voices of women and scholars and practitioners from the Global South who are often under-represented. Providing concrete examples of ways that a bottom-up approach can function to enhance development sustainably via its practitioners and far beyond the locale in which they initially worked, this volume demonstrates the lasting utility of approaches like Adaptive Collaborative Management that emphasise local control, inclusiveness and local creativity in management. This book will be of great interest to students, scholars and practitioners working in the fields of conservation, forest management, community development and natural resource management and development studies more broadly. The Open Access version of this book is available at www.taylorfrancis.com and has been made available under a Creative Commons Attribution Non-Commercial No Derivatives 4.0 license. **Nicholls, Montgomery, and Knowles on The Law of Extradition and Mutual Assistance** Clive Nicholls QC, Clive Nicholls, Clare Montgomery QC, Clare Montgomery, Julian B. The Grey Zone Mark Lattimer,Philippe Sands,2018-07-26 The high civilian death toll in modern protracted conflicts such as those in Syria or Iraq indicate the limits of international law in offering protections to civilians at risk A recent

Creativity and Captivity Uday Balasundaram, 2021-12-02 Ultimately what really does it mean to be creative How can we see ourselves as participating in the creativity of God for mission All people are creative Sadly however for many creativity is stifled and remains stunted due to several reasons social economic political cultural and even spiritual This study explores how ICMs indigenous cosmopolitan musicians negotiate their creativity amid the liminal spaces they occupy as they share in the creativity of God for mission through their music But what exactly does it mean to share in the creativity of God for mission Contrary to popular notion ICMs evidence that creativity is not merely innovation it is not a psychological metric for measuring human potential it is certainly not the icing on the cake reserved for a few so called creatives or artists Rather theological creativity is participation in the creatio Dei it is theologically prior to mission As a missiological framework creatio Dei is understood here in terms of creative being creative construction design and creative performance Hopefully this book can help clarify and expand our understanding of what it means to be truly creative and thereby with the help of the Creator put into practice

principles of theological creativity as we share in the creativity of God in the world with others

Business and Conflict in Fragile States Brian Ganson, Achim Wennmann, 2018-10-25 Large scale investments in fragile states in Latin America Africa the former Soviet Union and Asia become magnets for conflict which undermines business development and security International policy responds with regulation state building and institutional reform with poor and often perverse results Caught up in old ways of thinking about conflict and fragility and an age old fight over whether multinational corporations are good or bad for peaceful development it leaves business related conflicts in fragile states to multiply and fester Surveying a new strategic landscape of business and conflict Brian Ganson and Achim Wennmann conclude that neither company shareholders nor advocates for peaceful development need or should accept the growing cost of business related conflict in fragile states Drawing on decades of experience from mainstream conflict prevention and violence reduction efforts as well as promising company practice they show that even acute conflict is manageable when dealt with pragmatically locally and on its own terms The analysis and conclusions of this Adelphi book will interest policymakers business leaders and community advocates alike all those hoping to mitigate today's conflicts while helping to reduce fragility and build a firmer foundation for inclusive development
