International Maritime Boundaries Coalter Lathrop, 2025-03-24 Prepared by regional experts Volume IX provides critical commentary on international maritime boundary agreements concluded since the previous volume The International Maritime Boundaries series is the foremost authority on maritime boundaries and is used and referenced widely by practitioners and scholars of international law International Maritime Boundaries is also available online **Flow and Transformations in Porous Media** Renaud Toussaint, Bjørnar Sandnes, Daniel Koehn, Piotr Szymczak, Einat Aharonov, 2017-02-07 Fluid flow in transforming porous rocks fracture networks and granular media is a very active interdisciplinary research subject in Physics Earth Sciences and Engineering Examples of natural and engineered processes include hydrocarbon recovery carbon dioxide geo sequestration soil drying and wetting pollution remediation soil liquefaction landslides dynamics of wet or dry granular media dynamics of faulting or friction volcanic eruptions gas venting in sediments karst development and speleogenesis ore deposit development and radioactive waste disposal Hydrodynamic flow instabilities and pore scale disorder typically result in complex flow patterning In transforming media additional mechanisms come into play compaction de compaction erosion segregation and fracturing lead to changes in permeability over time Dissolution precipitation and chemical reactions between solutes and solids may gradually alter the composition and structure of the solid matrix either creating or destroying permeable paths for fluid flow A complex dynamic feedback thus arises where on the one hand the fluid flow affects the characteristics of the porous medium and on the other hand the changing medium influences the fluid flow This Research Topic Ebook presents current research illustrating the depth and breadth of ongoing work in the field of flow and transformation in porous media through 15 papers by 72 authors from around the world The body of work highlights the challenges posed by the vast range of length and time scales over which subsurface flow processes occur Importantly phenomena from each scale contribute to the larger scale behavior The flow of oil and gas in reservoirs and the flow of groundwater on catchment scale is sensitively linked to pore scale processes and material heterogeneity down to the micrometer scale The geological features of the same reservoirs and catchments evolved over millions of years sometimes as a consequence of cracking and fracture growth occurring on the time scale of microseconds The research presented by the authors of this Research Topic represents a step toward bridging the separation of scales as well as the separation of scientific disciplines so that a more unified picture of flow and transformation in porous media can start to emerge **The Boundaries of Belonging** Bernadette Nadya Jaworsky, 2016-12-09 This book addresses an issue currently making political headlines in the United States immigration Immigrants have long engendered debates about the boundaries of belonging with some singing their praises and others warning of their dangers In particular the 11 million unauthorized immigrants in the country provoke heated disagreements with issues of legality and morality at the forefront Increasingly such debates take place online by organizations in the immigrant rights and the immigration control

movements who engage in symbolic work that includes blurring crossing maintaining solidifying and shifting the boundaries of belonging Based on data collected from 29 national level groups this book features a cultural sociological analysis of the online materials deployed by social movement organizations debating immigration in the United States **Research**

Handbook on Law, Governance and Planetary Boundaries Duncan French, Louis J. Kotzé, 2021-04-30 This comprehensive Research Handbook is the first study to link law and Earth system science through the epistemic lens of the planetary boundaries framework It critically examines the legal and governance aspects of the framework considering not only each planetary boundary but also a range of systemic issues including the ability of law to keep us within the planetary boundaries safe operating space **Community Boundaries and Border Crossings** Kristen Lillvis, Robert Miltner, Molly Fuller, 2016-12-21

Globalization and transnationalism have reshaped our communities and their borderlines Communities exceed fixed boundaries existing instead in the liminal spaces where narratives intersect clash or cooperate These liminal spaces physical and virtual local and global provide opportunities for diversifying discussions on diaspora cultural hybridity and ethnic identity Ethnic women writers make significant contributions to this dialogue regarding the reconfiguration of people and their perimeters A multigenre and multicultural text Community Boundaries and Border Crossings explores the novels short stories essays autobiographies testimonios plays poems and hybrid poetics of established and emerging ethnic women writers This collection of critical essays highlights the new zones of cultural contact and exchange that are defining the twenty first century Each chapter reflects an awareness of cultural changes and challenges engaging readers in a richly productive conversation concerning the interconnectedness of border crossings and community boundaries

practitioners and educators *Federal Register* ,1978-06 **Women, Mobility and Incarceration** Rimple

Mehta,2018-09-03 This book explores how Bangladeshi women from poor and undereducated semi educated backgrounds who have crossed the Indo Bangladesh border find themselves in prisons serving sentences under the Foreigners Act 1946 Drawing on original fieldwork this book explores these women s understanding of borders and state sovereignty and how the women from conservative rural and semi rural backgrounds which impose a strict moral code adjust to the socio cultural context of an Indian prison where being an inmate is dishonourable in their community This book examines the implicit challenge in these women s action and decisions to these codes of honour to accepted social norms of their religion and community and ultimately the dominantly patriarchal system that marks South Asian society Further it focuses on the negotiations that the Bangladeshi women make with the social and political borders they encounter in the process of crossing the Indo Bangladesh border without requisite documents needed by the state for entry into a foreign land how they cope with the daily challenges of living during their imprisonment in a correctional home and their feelings about their impending return to Bangladesh Women who are apprehended and criminalised for crossing borders must negotiate with not only the normative understanding of borders which is inherently masculine in nature but also the gender biased lens through which female mobility is viewed therefore they not only cross political borders but also social borders This book maps the associations between women s experiences of mobility and incarceration and their linkages with social and political borders and the fraught experiences of being in a foreign territorial space It will be important reading for criminologists sociologists and those engaged in penology women s studies and migration studies **Rockefeller** Jacob Nordangård,2024-04-02 Why

would the first family of oil so ardently support environmental climate research and activism Join author and researcher Jacob Nordang rd as he uncovers the whole sordid truth The Rockefeller family is one of the richest in the world Yet why would the family that made the world dependent on oil fund environmental and climate research since the 1950s help shape climate policy measures since the 1980s and supported climate activism since the 1990s Rockefeller Controlling the Game is the thrilling and paradoxical story of one of the world s most influential global players Through its top position in American business close contacts with the White House and with their immense financial power as one of the world s leading private research funders the Rockefellers have been able to anchor the climate issue both scientifically and politically Yet what is the reasoning behind doing so Author and researcher Jacob Nordang rd follows the family from the founding of Standard Oil and the Rockefeller Foundation up through the aftermath of the Paris Agreement with the declaration of the Fourth Industrial Revolution in January 2016 to the present day Nordang rd s in depth research includes the large quantities of new material recently made available on the Internet as well as the Rockefeller Foundation s own annual reports Nordang rd s main focus is the Rockefeller family s involvement in climate research and politics but the actions and motives of some of their allies are also explored as well as the family s influence on the development of modern medicine family planning agriculture art

architecture behavioral science information technology and politics The Rockefeller family's utopian dream of a perfect world will have serious consequences for the survival of the human species and life as we know it The Rockefeller Foundation's stated mission to promote the well being of humanity throughout the world has a dark flipside as Nordang rd will prove the Rockefeller family's long standing battle against climate change contains elements of sophisticated propaganda techniques futurism and New Age philosophy aiming at a complete transformation of the whole earth system including economy ecology culture and even humanity itself
