9.3 Tappet replacement on vehicle (continued)

- Remove camshaft housing bolts in the specified order.
- Remove the intake and exhaust camshafts.

Note:

If the exhaust camshaft sprocket had not been removed in the previous step, the camshafts could not be detached from the chain in this step.

The chain can be freely fallen down as shown above, because the relationship between the crankshaft sprocket and the chain does not shift. The picture on the next page shows more detail.

After leaving the chain, replace the desired tappet.
