Emergency Response Guidebook 20guide 173:

Beyond Shelter after Disaster: Practice, Process and Possibilities David Sanderson, Jeni Burnell, 2013-09-13 Providing shelter after a disaster is recognised as one of the most complex areas of humanitarian relief and recovery Some aid agencies have stopped providing shelter altogether after bad experiences while those that do quickly become engaged in challenges that go far beyond the provision of structures alone Yet with the number and severity of disasters set to increase due to climate change and rapid urban growth the need for approaches that work has never been greater This book explores the issues in three parts The first Practice looks at lessons from past efforts Part two Process proposes practical and effective people centred approaches Part three considers currently neglected issues such as disability human rights and urban oriented approaches Through practical case studies and academic research Beyond Shelter after Disaster critiques past methods and explores future options for improving practice in one of the most complex areas of post disaster relief and recovery This book was originally published as a special issue in Environmental Hazards Human and Policy Dimensions

Human Rights in this Age of Uncertainty Vjollca Krasniqi, Jane McPherson, 2022-11-05 This book grounded in a human rights framework takes a close look at social work approaches and practices in Southeast Europe Human rights are central in today's understanding of social work as an academic discipline and as a professional practice Looking at social work through a human rights lens unmasks inequality and discrimination promotes ethical engagements and contributes to the social political and economic betterment of society Moreover human rights and social work are interdependent and have far reaching implications at macro mezzo and micro levels both in the realm of social policy and in professional practice This collection of eight chapters provides an overview of human rights practices in social work in Albania Bosnia and Herzegovina Bulgaria Croatia Kosovo Romania and Slovenia It presents state of the art research on human rights and social work through individual country focused chapters In addition it includes an integrative introductory chapter that identifies and discusses the commonalities and differences across the region as well as future directions The book takes an integrated approach with conversations among the contributors on three main questions What is the state of human rights in social work How are human rights practiced in social work What are the prospects for an integrated approach to human rights in social work in contemporary Southeast Europe Human Rights in this Age of Uncertainty is essential reading for social work academics and practitioners in Southeast Europe due to its geographic focus and standpoints from the specific countries of the region The book also should appeal to a wider European audience especially as the book features chapters from both inside and outside of the European Union as well as to an international audience of social work scholars In addition policy makers may find the book a useful resource because human rights discourse features prominently in the international approaches to welfare systems across Southeast Europe as part of the Europeanisation processes currently at play **Kozier & Erb's**
