The Challenge of Differentiation in Euro-Mediterranean Relations Esther Barbé, Anna Herranz-Surrallés, 2013-09-13 The tension between the aim of creating sustainable multilateral region building dynamics and the need to find more differentiated and flexible forms of cooperation has been ever present in Euro Mediterranean relations. The proliferation of different and partially overlapping initiatives in recent years, the Euro Mediterranean Partnership, the European Neighbourhood Policy and the Union for the Mediterranean is a plain expression of this tension. The 2011 episodes of regime change in the Arab world have once again placed the debate about differentiation in EU's relations with Southern and Eastern Mediterranean Countries at the top of the Union's foreign policy agenda. This book contributes to theoretical and practical debates on whether differentiation processes can aid or hinder policy convergence processes and region building efforts more widely. The contributions to this collection assess the actual significance and consequences of differentiation in Euro Mediterranean relations through sector specific in depth analyses covering issue areas as varied as environmental policy, migration, foreign and defence policy, trade, energy, civil protection and democracy promotion. The particular angle and comprehensive analysis of this book will make it of great interest for both scholars and policy makers alike in a moment when Euro Mediterranean are in need of a thorough rethink. This book was based on a special issue of *Mediterranean Politics*.

Life Without Lawyers Philip K. Howard, 2009 From the author of the bestselling *The Death of Common Sense*, comes this urgent and elegant argument to restore the can-do spirit that made America great. Howard argues that Americans are losing the freedom to make sense of daily choices and he explains how to get it back.

Life Without Lawyers: Restoring Responsibility in America Philip K. Howard, 2010-02-01 How to restore the can-do spirit that made America great from the author of the best-selling *The Death of Common Sense*. Americans are losing the freedom to make sense of daily choices: teachers can't maintain order in the classroom, managers are trained to avoid candor, schools ban tag and companies plaster inane warnings on everything. Remove Baby Before Folding Stroller. Philip K. Howard's urgent argument is full of examples, often darkly humorous. He describes the historical and cultural forces that led to this mess and lays out the basic shift in approach needed to fix it. Today we are flooded with legal threats that prevent us from taking responsibility. We must rebuild boundaries of law that protect an open field of freedom. The voices here will ring true to every reader. The analysis is powerful and the solution unavoidable. What's at stake? Howard explains in this seminal book is the vitality of American culture.
