2012 GCSE English results Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007 09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do *English B for the IB Diploma Coursebook*

subject the super curriculum of what happens outside the classroom the principles of assessment design and how time in departments can be used to reduce workload and support a culture of excellence Finally Part III looks at the role of the wider school in supporting teachers to teach like nobody's watching and how leaders can help to set them free from some of the more burdensome pressures In this section Mark draws on the experience of school leaders in a range of different contexts to illustrate what they have done to support effective and efficient teaching in their schools Suitable for all teachers in both primary and secondary schools
