**The Gift of Perspective** Lindsey Roy, 2023-10-17 Lindsey Roy proves beyond a shadow of a doubt that joy and happiness are just on the other side of the mountain you are climbing. Katherine Wintsch, CEO of The Mom Complex, author of *Slay Like a Mother*, a corporate executive wife and mother reflects on what she lost, what she didn't see coming, and the power of new vantage points. At age 31, Lindsey Roy was named vice president at Hallmark Cards, one of the youngest in the company's more than 100-year history. Her life was abruptly transformed five years later when she was nearly killed in a boating accident. Left with an amputated left leg and severe limb injuries and facing a long and difficult recovery ahead, she was determined not just to heal but to emerge stronger. She eventually shared what trauma had taught her about happiness in a TEDx talk that has been viewed nearly 200,000 times. Eight years post-accident, fully adapted to her circumstances and genuinely thriving, Lindsey confronted the unexpected again: she was diagnosed with a rare and progressive disease that destroyed the blood vessels in her lungs, requiring a double lung transplant. This profound setback challenged her to actively shift her viewpoint in order to discover the hidden advantages of her situation and new depths of resilience in herself. Now a sought-after speaker, she's imparting these hard-won lessons to help you adapt, persevere, and innovate in your own life. Brimming with valuable insights forged in the fire from Lindsey's journey and from other inspiring individuals she's met along the way, *The Gift of Perspective* is ready to meet you where you are and no matter where adversity may find you.

*The Electric Vehicle Revolution* Kenneth K. Boyer, 2024-08-06 A Fascinating Look at the 5 Leading Personalities Driving the Transition to Electric Vehicles and Reinventing the Auto Industry. The leading car manufacturing firms have all essentially pledged to transition from traditional carbon dioxide emitting vehicles to battery-powered electric vehicles. Tesla has led the way to date, recently producing its three millionth car since its first sale in 2009. General Motors has committed to carbon neutrality in its global products and operations by 2040. Honda has committed to carbon neutrality as well as zero traffic collision fatalities by 2050. These are ambitious and noble goals, yet they will take a supreme transformation to achieve. In *The Electric Vehicle Revolution*, Kenneth K. Boyer highlights the promise, perils, and personalities of the world's automobile makers as they re-engineer a post-carbon present and future. Driving the narrative is the key to it all: the green transformation of the global auto parts supply chain. This book includes never-before-reported stories of the leaders, designers, engineers, and inventors leading the charge to decarbonize the transportation sector, from packaging to tires and more. Boyer examines the prospects and plans for this disruptive change, starting with stories of several automotive

visionaries Tesla CEO Elon Musk Vietnam billionaire Pham Nh t Vuong Ceer CEO Jim DeLuca Monolith Corp cofounder Rob Hanson and GM CEO Mary Barra Each protagonist has a vision for transforming the world of transportation into a greener more carbon friendly industry while also earning profits in our predominantly capitalist world Readers will learn how their breakthroughs and struggles illuminate the future while facing the question Will an auto revolution lead the world to a more sustainable economic future or will it be too late
