

Performance Task #3

(Survey)

Questions	YES	NO	Total
1. During the time you are working or earning money, did you have more savings than loans or vice versa?	9	11	20
2. At this point in time, do you still have outstanding loans?	2	18	20
3. At this point of time, do you think you have enough savings?	12	8	20

Results:

The group surveyed 20 individuals with a minimum age of 45 years old regardless of gender and status within Angeles City. Base from the survey, in question number 1, 11 individuals with an adult age of 45 and above experienced greater number of loans with lesser savings during the time they're earning while 9 individuals had an opposite experience by having greater number of savings than their loans. At present, in question number 2, 18 individuals don't have outstanding loans and liabilities to pay while 2 individuals that were surveyed still have outstanding loans under their liabilities. Lastly, in question number 3, 12 individuals still have enough savings while 8 individuals don't have enough savings at the moment.

Conclusion:

We therefore conclude that people with an adult age of 45 and above experienced borrowing money through loans and been able to settle their loan liabilities in time. At present, they also have enough savings to sustain their needs.
