choose from the web what they see fit for their classroom students choose in the moment what they need for their projects and learning paths However educators and students often find it difficult to choose from the abundance of materials on offer as they are uncertain about their quality and beneficial use It is clear that at a time of bouleversement of the teaching learning processes it is crucial to understand the quality and the potentially transformative aspects of digital resources This book provides comprehensive analyses of and insights into the transformative aspects of digital resources Building Online Learning Communities Rena M. Palloff, Keith Pratt, 2007-07-20 Building Online Learning Communities further explores the development of virtual classroom environments that foster a sense of community and empower students to take charge of their learning to successfully achieve learning outcomes This is the second edition of the groundbreaking book by Rena Palloff and Keith Pratt and has been completely updated and expanded to include the most current information on effective online course development and delivery A practical hands on guide this resource is filled with illustrative case studies vignettes and examples from a wide variety of successful online courses The authors offer proven strategies for handling challenges that include Engaging students in the formation of an online learning community Establishing a sense of presence online Maximizing participation Developing effective courses that include collaboration and reflection Assessing student performance Written for faculty in any distance learning environment this revised edition is based on the authors many years of work in faculty development for online teaching as well as their extensive personal experience as faculty in online distance education Rena M Palloff and Keith Pratt share insights designed to guide readers through the steps of online course design and delivery *Advancing Online Teaching* Kevin Kelly, Todd D. Zakrajsek, 2023-07-03 The goal of teaching online is fundamentally the same as teaching face to face facilitating the learning of all students to the greatest extent possible This book differs from other books on online teaching in that in the process of offering guidance on course design and planning developing outcomes and appropriate engaging activities managing the workload and assessment the authors pay explicit attention throughout to the distinct and diverse needs of students and offer effective strategies to accommodate them in a comprehensive and inclusive way by using the principles of Universal Design for Learning By following those principles from the outset when planning a course all students will benefit and most particularly those whom the research shows have the greatest achievement gaps when taking online courses males first generation and low income students those from underrepresented minority groups the academically underprepared students with disabilities and those with limited online access or lacking readiness for online learning Beyond good planning and design Kelly and Zakrajsek offer ideas for creating inclusive course environments and activities such as using culturally appropriate content and making it accessible in multiple formats They also share methods to foster faculty learner interaction and increase personal connections with students and among students through group activities or learning communities which are so critical to motivation and success Faculty new to online teaching as well as more experienced readers will find a wealth of practical guidance on developing and honing

both fully online and blended courses and as importantly a wealth of proven ideas to help the new generation of students with diverse needs to succeed *E-Learning and Business Plans* Elaina Norlin, Tiffini Travis, 2008-07-25 With the invention of desktop computers electronic learning or e learning has become a convenient learning tool of choice for individuals with busy schedules For the past several years there has been a continuous stream of much needed innovation in the use of e learning and these have now become second nature to both e learning providers and users But just as e learning has enhanced and enriched our lives challenges have increased as the creation of courses and e learning material evolve Technology although it makes our lives easier can come with a not so affordable price tag As creators of e learning content after raising money to provide a costly e learning initiative how do we know if our customers or target audience are really learning Who is going to maintain the technology Who will subsidize the upkeep costs How do we know if there is a better product on the horizon that can do it more cheaply and with more advanced technology infrastructure E learning and Business Plans National and International Case Studies provides a comprehensive view on how to develop non profit business plans for both small and large scale e learning projects Editors Tiffini Travis and Elaina Norlin present both national and international case studies covering many elements of a typical non profit business plan and reveal the experiences individuals have had while developing their project This book will be useful to professionals non profit organizations and academic researchers who are currently considering working on large scale e learning or high cost high risk projects While many issues are library related the book is relevant to non librarians as well *Workshop Proceedings of the 11th International Conference on Intelligent Environments* D. Preuveneers, 2015-07-06 With emerging trends such as the Internet of Things sensors and actuators are now deployed and connected everywhere to gather information and solve problems and such systems are expected to be trustworthy dependable and reliable under all circumstances But developing intelligent environments which have a degree of common sense is proving to be exceedingly complicated and we are probably still more than a decade away from sophisticated networked systems which exhibit human like thought and intelligent behavior This book presents the proceedings of four workshops and symposia the 4th International Workshop on Smart Offices and Other Workplaces SOOW 15 the 4th International Workshop on the Reliability of Intelligent Environments WoRIE 15 the Symposium on Future Intelligent Educational Environments and Learning 2015 SOFIEEe 15 and the 1st Immersive Learning Research Network Conference iLRN 15 These formed part of the 11th International Conference on Intelligent Environments held in Prague Czech Republic in July 2015 which focused on the development of advanced reliable intelligent environments as well as newly emerging and rapidly evolving topics This overview of and insight into the latest developments of active researchers in the field will be of interest to all those who follow developments in the world of intelligent environments
