

to the failure of private prisons to meet the needs of prisoners and employees. Dr. Andra Ghent, an economics professor at University of North Carolina, a researcher, and an editor of the *Journal of Banking and Finance*, argues that although prisons may be fixated on cost, they neglect the real needs of prisoners: Private prisons have worse outcomes because of their current economic incentives. At present their performance is measured exclusively by how little they spend per prisoner day. There is no incentive to reduce recidivism rates-even though less recidivism means both lower crime rates and lower cost to taxpayers. High recidivism rates ensure private prisons a stable and growing stream of future 'customers'. (Ghent)

Brian Magee, communications associate for the *American Humanist Association*, affirms Ghent's statement that private prisons' focus on saving money leads to higher recidivism rates because the lack of money placed in rehabilitation programs causes more prisoners to return to prison, adding that it would be more cost effective if prisoners stayed out of prison once they

Ninth Edition Kate L. Turabian, 2018-04-27 When Kate L. Turabian first put her famous guidelines to paper she could hardly have imagined the world in which today's students would be conducting research. Yet the ways in which we research and compose papers may have changed, but the fundamentals remain the same: writers need to have a strong research question, construct an evidence-based argument, cite their sources, and structure their work in a logical way. *A Manual for Writers of Research Papers, Theses, and Dissertations*, also known as Turabian, remains one of the most popular books for writers because of its timeless focus on achieving these goals. This new edition filters decades of expertise into modern standards. While previous editions incorporated digital forms of research and writing, this edition goes even further to build information literacy, recognizing that most students will be doing their work largely or entirely online and on screens. Chapters include updated advice on finding, evaluating, and citing a wide range of digital sources and also recognize the evolving use of software for citation management, graphics, and paper format and submission. The ninth edition is fully aligned with the recently released *Chicago Manual of Style* 17th edition as well as with the latest edition of *The Craft of Research*. Teachers and users of the previous editions will recognize the familiar three-part structure. Part 1 covers every step of the research and writing process, including drafting and revising. Part 2 offers a comprehensive guide to Chicago's two methods of source citation: notes/bibliography and author-date. Part 3 gets into matters of editorial style and the correct way to present quotations and visual material. *A Manual for Writers* also covers an issue familiar to writers of all levels: how to conquer the fear of tackling a major writing project. Through eight decades and millions of copies, *A Manual for Writers* has helped generations shape their ideas into compelling research papers. This new edition will continue to be the gold standard for college and graduate students in virtually all academic disciplines. Bestselling, trusted, and time-tested advice for writing research papers. The best interpretation of Chicago style for higher education students and researchers. Definitive, clear, and easy to read, with plenty of examples. Shows how to compose a strong research question, construct an evidence-based argument, cite sources, and structure work in a logical way. Essential for anyone interested in learning about research. Everything any student or teacher needs to know concerning paper writing. *The College Student's Guide to Writing a Great Research Paper* Erika Eby, 2012 the required word count. **The Good Paper** Lotte Rienecker, Peter Stray Jørgensen, Signe Skov, 2013 in Danish higher education. **Essay Writing: Step-By-Step** Newsweek Education Program, 2003-07-22 For more than 30 years the Newsweek Education Program has been providing teachers and students with the finest integrated news education program in the United States.
