**The International Institute for
Strategic Studies (IISS)**

How To Join Rsa Navy 2014 2016:

Military Construction, Veterans Affairs, and Related Agencies Appropriations for 2016: Hearing: related agencies; American Battle Monuments Commission; Arlington National Cemetery; U.S. Court of Appeals for Veterans Claims; Armed Forces Retirement Home; Outside witness testimony: American Psychological Association United States. Congress. House. Committee on Appropriations. Subcommittee on Military Construction, Veterans Affairs, and Related Agencies, 2015 *On Dangerous Ground* Gregory B. Poling, 2022-07-01 In *On Dangerous Ground* Gregory B. Poling evaluates US interests in the world's most complex and dangerous maritime disputes American involvement in the South China Sea Providing a deep history of America's geostrategy in the region from the late 19th century to present day he focuses on how the dispute intersected with the longstanding US commitment to freedom of the seas and its evolving alliance network in Asia With a heavy emphasis on decisions made by policymakers in Washington Manila and other Southeast Asian capitals this book not only provides the most comprehensive account yet of America's history in the South China Sea but it also demonstrates how that history should inform US national security policy in one of the most geopolitically important ocean areas in the world **Naval Powers in the Indian Ocean and the Western Pacific** Howard M. Hensel, Amit Gupta, 2018-05-11 A vital component of the interdependent global economy maritime transit routes are nowhere more critical than those traversing the Indian Ocean and the Western Pacific Previously areas of the Indian Ocean and Western Pacific have been viewed as separate and discrete political economic and military regions In recent years however a variety of economic political and military forces have created a new understanding of these maritime expanses as one zone of global interaction This book complements the material presented in its companion volume *Maritime Security in the Indian Ocean and the Western Pacific* by analysing the perceptions interests objectives maritime capabilities and policies of the major maritime powers operating in the Indian Ocean and the Western Pacific In addition the book also assesses the contemporary maritime challenges and opportunities that confront the global community within what is rapidly becoming recognised as an integrated zone of global interaction A valuable study for researchers and policymakers working in the fields of maritime security military security and peace studies conflict resolution and Asian affairs **Towards Good Order at Sea** Thomas Mandrup, Francois Vre~, 2015-03-01 The problems originating from the resultant bad order at sea can be directly felt on land when smuggling terrorism and related criminal activities operate more or less unhindered The book provides an important mapping of the challenges preventing good order at sea off the African coast and East Africa in particular Rear Admiral N Wang Commandant Royal Danish Defence College **The Military Balance 2013** The International Institute for Strategic Studies (IISS), 2020-12-14 The *Military Balance 2013* is the annual assessment of the military capabilities and defence economics of 171 countries world wide New features of the 2013 edition include reorganised and expanded analytical essays New sections on trends in contemporary armed conflicts in Afghanistan and

Syria as well as trends in defence capability areas with a focus on equipment technological or doctrinal developments There is also an essay on trends in defence economics and procurement one on European defence industries and another on anti access area denial detailed analysis of regional and national defence policy and economic issues for selected states updated graphics feature on comparative defence statistics with focus on defence economics and major land sea and air capability concerns tables graphics and analysis of defence economics issues additional national capability summaries additional data on land forces combat support and combat service support new graphics and maps on defence capability issues and additional data on cyber capabilities

South Africa's Post-Apartheid Military Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994 In South Africa's changed political state how has civilian control of the military been implemented and what does this mean for defence in a democracy This book presents an overview of the security environment how the mission focus of the military has changed and the implications for force procurement force preparation force employment and force sustainability The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force the effect of affirmative action on meritocracy recruitment and retention military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged HIV AIDS and the consequences this holds for the military in terms of its operational effectiveness In closing the author highlights key events that have caused the SANDF to become lost in transition and transformation spelling out some lessons learned The conclusions she draws are pertinent for the future of defence security and civil military relations of countries around the world

Seapower Geoffrey Till, 2018-06-19 This is the fourth revised and updated edition of Geoffrey Till's *Seapower A Guide for the Twenty first Century* The rise of the Chinese and other Asian navies worsening quarrels over maritime jurisdiction and the United States maritime pivot towards the Asia Pacific region reminds us that the sea has always been central to human development as a source of resources and as a means of transportation information exchange and strategic dominion It has provided the basis for mankind's prosperity and security and this is even more true in the early twenty first century with the emergence of an increasingly globalised world trading system Navies have always provided a way of policing and sometimes exploiting the system In contemporary conditions navies and other forms of maritime power are having to adapt in order to exert the maximum power ashore in the company of others and to expand the range of their interests activities and responsibilities While these new tasks are developing fast traditional ones still predominate Deterrence remains the first duty of today's navies backed up by the need to fight and win if necessary How navies and their states balance these two imperatives will tell us a great deal about our future in this increasingly maritime century This book investigates the consequences of all this for the developing nature composition and functions of all the

world's significant navies and provides a guide for anyone interested in the changing and crucial role of seapower in the twenty-first century. Seapower is essential reading for all students of naval power, maritime security and naval history and highly recommended for students of strategic studies, international security and international relations. **Modern**

Maritime Piracy Robert C. McCabe, 2017-09-14 This book examines the complex phenomena of modern maritime piracy. The work offers a cutting-edge analysis of modern maritime piracy in the two most pirate-prone regions, southeast Asia and northeast Africa, from the late twentieth century to the modern day. These case studies present a detailed exploration of how regional and international governments responded to upsurges of piracy and how responses have evolved over the course of the past 40 years. This analysis reveals the results of these efforts and what effect, if any, suppressing piracy at sea had on tensions and instability ashore. The book transcends a simple narrative, providing detailed and extensively researched case studies of contemporary manifestations and responses at the strategic, operational and tactical levels. New insights are offered such as the role of external navies in the repression of piracy in northeast Africa before the well-documented escalation in 2005. In addition, this book constructs a comparative analytic framework to gauge the effectiveness and shortcomings of modern attempts to counteract piracy, which reveals lessons learned, future policy projections and wider implications. This analysis adds new classifications, innovative concepts and scholarly depth to the field of maritime security studies, naval history and theory and international relations. This book will be of much interest to students of naval history, maritime security, strategic studies and international relations. **US-Chinese Strategic Triangles** S. Mahmud

Ali, 2017-06-07 This book reveals the nature of Sino-US strategic competition by examining the influence exerted by major secondary stakeholders, e.g. Japan, Russia, India, the Koreas and ASEAN, on the two powers, USA and its rival China, who consider each other as a source of greatest challenges to their respective interests. By adopting strategic triangles as the analytical framework and assessing triangular relational dynamics such as US-China-Japan or US-China-Russia, the author illustrates how secondary stakeholders advance their own interests by exploiting their respective linkages to the two rivals, thereby shaping Sino-US competitive dynamics. This work adds a regional and multivariable perspective to the understanding of the Indo-Pacific's insecurity challenges. **African Navies** Timothy Stapleton, 2022-11-11 This edited volume focuses on

aspects of the understudied theme of African sea power, including African navies and the engagement of non-African navies with the continent. Africa possesses 48,000 kilometers of coastline, comprising 38 out of 54 of the continent's states and several strategic choke points for international shipping such as the Suez Canal, the Gulf of Aden and the Cape of Good Hope. Nevertheless, post-colonial Africa's small navies and their relations with the navies of external powers have not received much scholarly attention. Focusing on Sub-Saharan Africa, this collection attempts to address this neglect and stimulate further research by offering original chapters related to historical and contemporary themes around Africa's navies. The historical chapters cover the origin of the Tanzanian, Ethiopian, Nigerian and Ghana navies during the era of decolonization.

and the Cold War the asymmetrical naval campaign fought during the Nigerian Civil War 1967 70 and the activities of the Soviet Navy in supporting African states and movements fighting lingering colonialism and white supremacy during the 1970s and 1980s Focusing on the contemporary situation other chapters discuss the engagement of the Indian Navy with Africa the potential role of the Angolan and Mozambican navies in the Southern African Development Community SADC the transformation and development of the post apartheid South African Navy and the challenges and capabilities of African navies in the early twenty first century The book concludes by discussing the question of whether African coastal countries need navies This book will be of much interest to students of naval power strategic studies African politics and International Relations Chapters 1 2 6 and 8 of this book are available for free in Open Access at www.taylorfrancis.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license
