Material Review: Profiline is a high quality composite core material made from end grain balsa wood. The end grain, micro-honeycomb structure offers exceptional shear and compressive strength. In addition Profiline offers good fatigue properties, high thermal and

Profilabs is best suited for dynamic structures where performance and efficiency are paramount. All Profilabs core materials are particularly easy to work using conventional woodworking tools. They can be drilled, milled, turned and sanded to close to net, without loss of inherent properties. It is also suitable for elevated temperature and pressure systems. Profilabs Plus is a premium version of Profilabs where the surface is glass finished and treated with a special surface primer to reduce wear.
