Description

Functionality and aesthetic design – the special attraction of **digital CCD cameras FAC 940, FAC 940L and FAC 940L-IR** lies in their innovative design and modular construction. The extremely small camera body combined with the MID 930/MIR 930 design housings enables these cameras to blend discreetly and inconspicuously with architectural and interior designs for indoor applications. A wide range of components, such as waterproof housings, allow the same cameras to be used for outdoor applications in harsh environments. An infrared version is available for night-time operation and scenes with insufficient lighting.

The FAC 940 cameras boast an extensive array of standard features, including electronically controlled exposure, back light compensation (BLC) and automatic white balance. The versions FAC 940L and FAC 940L-IR come with the standard features automatic black level control, pixel error correction, processor-controlled low-speed shutter and a picture store for 8 fields and stored picture comparison. Special versions of the L and L-IR cameras are also available with live check and ticker insertion. The FAC 940L and L-IR cameras enable make superb picture reproduction possible even in extremely poor light conditions.

Software system settings and scene-specific adjustments can be made quickly and easily via the remote control interface on the camera without having to leave the control centre. And it goes without saying that these cameras are easily integrated in existing systems.
