Academic Writing Andrew P. Johnson, 2016-05-08 This book provides a foundation and framework to enhance your understanding of the various processes involved in academic writing. The term academic writing here refers to the types of writing used in college level writing courses at both the undergraduate and graduate level. However, this book was not written simply to help you pass another English class or to get you through the next writing intensive course, although it will certainly do that. At some point you will be out in the real world, hopefully. Thus, the purpose of this book is to enable you to be an effective writer and thinker in all contexts, including your personal and professional lives.

**Introduction to Research Methodology for Specialists and Trainees** P. M. Shaughn O'Brien, Fiona Broughton Pipkin, 2017-08-17 Health-centred research has changed hugely over the last ten years, from the importance of computing software to the NHS becoming more involved in research. The expectations of grant-awarding bodies, ethics committees and publishers have evolved and increased in many senses. This new edition is designed for trainee clinicians, not only those preparing for membership of the Royal College of Obstetricians and Gynaecologists (MRCOG) but also higher degree candidates and aspiring clinical academics. Chapter authors with extensive expertise make the path to embarking on research direct, straightforward and most importantly, fun and interesting, particularly aiming to support those who trained clinically and are now undertaking a research project or beginning an academic career. There remains no single book with so much relevant information gathered in a single, succinct volume. This edition now covers the wide spectrum of modern research methods for all specialities, with five supplementary chapters on major obstetric and gynaecological subspecialties.

How to Make Your Own Patent Drawings and Save Thousands J. W. Jack Koller, 2011 The full cost of filing and receiving a patent can be anywhere from 2,000 to 10,000, depending on what you need to complete the process. For those who have spent their entire lives developing an idea and a patentable process, it can be incredibly frustrating to know you have to wait just that much longer to pay for the applications, legal forms, and most of all, the patent drawings necessary to move forward. But if you have the right tools and the right knowledge of everything the government needs from you in a patent drawing, you can bypass much of what has plagued companies and inventors everywhere for decades.
