Numerical Correlation between Impact Factor and Web Ranking of Electronic Scientific Journals Using Regression Analysis Giorgos Kouropoulos, Γιώργος Κουρόπουλος, 2017-12-15 The present study attempts to examine the numerical correlation between web ranking of electronic scientific journals and impact factor of these journals using the method of regression analysis Regression analysis allows the option of investigating and predicting the numerical relationship between website ranking of scientific journals on the World Wide Web and the value of impact factor of the journals A sample of 57 publishers with 6 272 scientific journals and 50 standalone scientific journals was analyzed during research procedure In this study two different indicators about websites classification on World Wide Web were examined separately for 57 publishers and 50 standalone journals Alexa rank and Statscrops rank The electronic databases through the internet constitute the main information resources of this study about the impact factors The general conclusion that arises is that the impact factor of electronic scientific journals illustrates a very strong positive correlation with classification of websites on the World Wide Web Furthermore it is concluded that the change of web ranking as a function of impact factor is governed by a Gaussian function or rational function with lower Pearson coefficient and presents non linearly correlation Even if there is very strong correlation between impact factor and web rank for electronic journals the prediction of impact factor from web rank is not possible and presents many divergences Accounting Journals: Scopus, Web of Science, SCImago Liudmyla Shkulipa, 2020-03-09 This book is a full guidebook among more than 218 accounting international journals with an evaluation of 3 000 publications for over the last two years It aims to help readers for selecting an appropriate journal for publishing own research in the international arena or to find the required topic for conducting further investigating or to be informed about so large scale science as accounting Here a reader will find detailed information about accounting journals in terms of Scopus Web of Science and SCImago databases In addition there are highlighted accounting journals in terms of IFRS and blockchain concentration in accounting researches nowadays The relevant aims and scope of each journal are also presented Anyway this book is an indispensable assistant for students while getting the Accounting specialization as well as teachers and scientists while conducting empirical researches in the practice and theory of the accounting field Journals of the Century Tony Stankus, 2019-12-06 This book first published in 2002 gathers some of America s top subject expert librarians to determine the most influential journals in their respective fields 32 contributing authors reviewed journals from over twenty countries that have successfully shaped the evolution of their individual specialties worldwide Their choices reflect the history of each discipline or profession taking into account rivalries between universities professional societies for profit and not for profit publishers and even nation states and international ideologies in each journal s quest for reputational dominance Each journal was judged using criteria such as longevity of publication foresight in carving out its niche ability to attract none are in the employ of any publisher but each is fully credentialed and well published and many are award winners

The authors guide college and professional school librarians on limited budgets via an exposition of their analytical and critical winnowing process in determining the classic resources for their faculty students and working professional clientele

Impact of Global University Ranking Systems on Developing Countries Onyancha, Omwoyo Bosire, Tella, Adeyinka, 2023-06-01 The emotive discourses on the subject of university rankings are directly linked to the effect of such rankings on the performance of universities throughout the world. It has been observed that the top ranked universities attract major financial commitments from the industry, the best students, quality researchers, and a wide range of other quality endowments such as equipment, libraries, and laboratories. It is not surprising that the ranking of universities has gained popularity and become a significant factor shaping not only the reputation of universities but also the performance of said institutions around the world, including the developing countries. *Impact of Global University Ranking Systems on Developing Countries* presents a collection of perspectives from scholars and other stakeholders on the impact of the global ranking systems on developing countries. The book is an additional resource for discussion and discourse as far as the global university ranking systems are concerned and opens new frontiers for further research. Covering key topics such as assessment ethics and academic freedom, this premier reference source is ideal for administrators, policymakers, researchers, scholars, academicians, practitioners, instructors, and students.

Directory of Scholarly Journals in Turkey Metin Kozak, Nazmi Kozak, 2017-03-07 Scholarly journals are the capillaries of the scientific world, ensuring the circulation of knowledge. Moreover, scholarly journals guide and indicate the scientific development in an academic field of study or in a country. Scholarly journals which transfer and spread scientific information are intended to properly fulfill their functions, preventing the transfer of imperfect or incorrect information to the science world. Significant issues are therefore inevitable in the characteristics of scientific studies in such disciplines and countries where the scholarly journals do not fulfill their functions properly. This study encompasses all scholarly journals published in Turkey in all fields of science and other disciplines. The reference questions in this study are grouped under three main categories: the content and publication information, article evaluation, and publishing information. The number of journals in this present study totals 1,910.

PULP Guide: Where to publish, Information on academic journals relevant to law and accredited by the Department of Education of South Africa (Second Edition), Towards a Psychophysiological Approach in Physical Activity, Exercise, and Sports Pedro Forte, Daniel Leite Portella, Diogo Monteiro, José Eduardo Teixeira, 2023-10-30. In recent years there has been an increase in interest in mental health disorders as a result of mediatic coverage of Olympic athletes' mental health struggles and also due to the COVID-19 pandemic lockdowns. These phenomena helped to further exacerbate a problem already extensively present in sport and society. Therefore, applying a psychophysiological approach to physical activity, exercise and sports research has become very popular. Indeed, mental fatigue and mental disorders are not only psychological in origin but also require an explanation from a psychophysiological perspective due to the effective interconnection between the psychological and physiological dimensions. Psychological variables can also influence performance and the psychophysiological system has a strong effect on the control of physical capacities. Moreover, pacing, behaviour, decision making, self-regulation and effort perception can also explain the role of the brain in physical activity and exercise management. Thus, the aim of this Research Topic is to share the impact of a psychophysiological approach in physical activity, exercise and sports.

Influencer Marketing Lauren Gurrieri, Jenna Drenten, Crystal Abidin, 2024-12-16. Influencer marketing often gets touted as more authentic, democratised, credible and relatable than traditional marketing tactics. But such hype glosses over its messy sociocultural dynamics and underlying disparities. This book discusses and debates the complexities of influencer marketing, casting a critical and interdisciplinary lens on its practices, consumption and far-reaching societal impact. Beneath the surface of likes, shares and selfies lie critical questions around power imbalances, tensions and transformations in a content-driven marketplace. How have historical economic and technological changes shaped the development and maturation of influencer marketing as a scholarly field and an industry practice? Who attains the mantle of an influencer, what attributes transcend traditional categorisations, how are the complexities of identity portrayed through influencer culture and how do so-called nontraditional influencers connect with audiences and disseminate their perspectives in unique ways? How do evolving influencer audience relationships foster mutual benefits and potential pitfalls? Influencer marketing has evolved from a marketing tactic to a cultural phenomenon. It is shaped and is shaped by the currents of culture. By bridging theoretical

perspectives and crossing disciplinary boundaries the chapters in this volume advance the readers understanding of influencer marketing by bringing to life its complexities embracing its messiness and highlighting future potentialities The chapters in this book were originally published as a special issue of Journal of Marketing Management
