In Six Days :

In Six Days John Ashton, 2001-01-01 Why would any educated scientist with a PhD advocate a literal interpretation of the six days of creation Why indeed when only one in three Americans believes the Bible is the actual word of God and is to be taken literally word for word according to a recent Gallup poll Science can neither prove nor disprove evolution any more than it can creation Certainly there are no human eyewitness accounts of either However certain factors are present today which are capable of swaying one's beliefs one way or the other In this book are the testimonies of fifty men and women holding doctorates in a wide range of scientific fields who have been convicted by the evidence to believe in a literal six day creation For example meet The geneticist who concludes that there must have been 150 billion forerunners of modern man in order for the natural selection required by evolution to have taken place in the development of man The evidence for such vast numbers of prehistoric man is in dire shortage The orthodontist who discovered that European museum fossils of ancient man have been tampered with to adhere to evolution theories The geologist who studied under the late Stephen Jay Gould and literally cut the Bible to pieces before totally rejecting evolution All fifty of these scientists through faith and scientific fact have come to the conclusion that God's Word is true and everything had its origin not so very long ago in the beginning

In Six Days Creation in Six Days James B. Jordan, 1999 Creation in Six Days offers an exegetical literary and theological defense of the traditional interpretation of the Genesis account of six day creation Jordan's account is primarily designed to answer any approach to the text of Genesis such as the increasingly popular Framework Hypothesis that pits the text's literary features against its historical and narrative sense Beyond his exegetical critique of several prominent positions Jordan offers a constructive reading of the early parts of Genesis and also seeks to uncover the assumptions which attract people to the Framework Interpretation and similar views The explanation he says lies in the acceptance of many of the questionable assumptions of modern science on the part of most Christians today coupled with the pervasiveness of a gnostic or nonhistorical attitude toward the Christian faith

Six Days Ken Ham, 2013-11-01 Discover how many evangelical leaders willingly or unwittingly are undermining the authority of God's Word by compromising the Bible in Genesis Learn how allowing for an old universe of billions of years unlocks a door of compromise Heed the wake up call to the Church to return to the authority of God's Word beginning in Genesis Today most Bible colleges seminaries K 12 Christian schools and now even parts of the homeschool movement do not accept the first eleven chapters of Genesis as literal history They try to fit the supposed billions of years into Genesis and some teach evolution as fact Our churches are largely following suit Ken Ham international speaker and author on biblical authority examines how compromise starting in Genesis particularly in regard to the six days of creation and the earth's age have filtered down from the Bible colleges and seminaries to pastors and finally to parents and their children This erosive legacy is seen in generations of young people leaving the Church 2/3 of them Get the facts discover God's truth and help bring a new reformation to the Church by helping to call it back to the
