Incident At Zhenbao:

ALLELOPATHY Judy Chen, 2024-08-28 The historical events in the book come from Wikipedia and the Internet Our generation experienced the Great Famine and the Cultural Revolution during the Mao era and experienced the tremendous changes in China s 40 years of economic reform with the strong support of the United States The book explains that the Chinese Communist Party the Soviet Communist Party and the United States have been in a split and cooperation contest for a hundred years due to complex historical reasons Understanding the historical truth improves the ability to distinguish right from wrong To this end in the first chapter I adopted Tucker Carlson the former gold medal political commentator of Fox in the United States as the opening remarks of this book Cognitive warfare is the most important war without gunpowder in our time Cognition directly affects a person s actions Therefore it is our responsibility to spread the truth The book describes the historical grievances and current situation between the Communist Party of China and the Republic of China in Taiwan With the changes of the times Taiwan has completed the democratic process and has become the best democratic country in Asia and even the world It has also become the center of world AI technology China is still a dictatorial regime of the Communist Party It has become a consensus among more and more countries that the two countries are not subordinate to each other The background story of COVID 19 is very shocking The United States has always been the imaginary enemy of the Chinese military whether in war peacetime or the Cold War The peaceful protest on Capitol Hill on January 6 was characterized as treason which is also of concern to the whole world I recorded the course of the incident at that time and restored the truth of the matter At present we are in a century long transformation which is an inevitable result of historical development Currently we are in the midst of a century of major changes and it is very necessary to understand the truth about history and reality

War in Modern China Harold M Tanner, 2025-09-30 This book offers comprehensive coverage of China's military history from the Qing dynasty 1644 1912 to present China has become one of the great world powers of the twenty first century As a result Chinese leaders and observers outside of China alike seek to explain China's strategic thought and action In doing so they routinely refer to China's military history This volume examines this history beginning with the Qing dynasty's era of imperial expansion and subsequent decline continuing with the wars against foreign aggression and internal uprisings of the nineteenth century the revolutionary overthrow of the Qing in 1911 and seemingly constant wars of the first half of the twentieth century and concluding with the Chinese Communist Party's use of military power from 1950 to present This history is generally presented as a narrative of imperial greatness followed by a century of national humiliation followed by a recovery of national wealth and power under Communist Party leadership While acknowledging this narrative Harold Tanner digs deeper to reveal a fundamental continuity of interests underlying Chinese strategic thinking from the Qing to the present while also showing how the theory and practice of war in China changed over time as Chinese political and military leaders wrestled with tremendous challenges drawing on foreign sources as well as their own cultural heritage to seek new solutions Both engaging and timely War in Modern China A Military History is essential reading for students scholars and enthusiasts of Chinese and global military history
