Dads, Kids, and Fitness William Marsiglio, 2016-10-31 Now more than ever American dads act as hands on caregivers who are devoted to keeping themselves and their families healthy Yet men are also disproportionately likely to neglect their own health care diets and exercise routines bad habits that they risk passing on to their children In Dads Kids and Fitness William Marsiglio challenges dads to become more health conscious in how they live and raise their children His conclusions are drawn not only from his revealing interviews with a diverse sample of dads and pediatric healthcare professionals but also from his own unique personal experiences as a teenage father who thirty one years later became a later life dad to a second son Marsiglio s research highlights the value of treating dads as central players in what he calls the social health matrix which can serve both healthy children and those with special needs He also outlines how schools healthcare facilities religious groups and other organizations can help dads make a positive imprint on their families health fitness and well being Anchored in compelling life stories of joy tragedy and resilience Dads Kids and Fitness extends and deepens public conversation about health at a pivotal historical moment Its progressive message breathes new life into discussions about fathering manhood and health
