Jab Kenya University September October Intake:

Trails in Academic and Administrative Leadership in Kenya Michieka, Ratemo Waya, 2017-05-03 Scholars especially those interested in understanding how leadership has inhibited academic freedom and hindered effectiveness of institutions of higher learning have for long been engaged by the very important manner in which governance and leadership of higher education institutions in Africa is constituted and managed The fact that there has been a dearth of work based on the experiences of those who have served as university leaders has created a major gap Questions remain on how leaders of higher education institutions are identified how they are prepared the personal predispositions that individuals bring to the exercise of such positions and their personal experiences regarding what energizes or inhibits the performance of their work Until recently presidents in most African countries served as chancellors of public universities identification of those who served as university leaders was largely a political process But much has changed with most countries establishing oversight bodies and the overall governance of higher education institutions divorced from the day to day political processes Trails in Academic and Administrative Leadership in Kenya provides a personal account of the experiences in higher education leadership from an individual whose tenure in leadership straddled the two eras In this book Prof Michieka provides an account of how his early education prepared him for roles in academic and institutional leadership in Kenya The author shares his experiences on the trails he had to navigate as an academic a vice chancellor and a chairperson of university council at a time when universities in Kenya were transiting from extreme government administrative control to a greater degree of operational autonomy Readers will find in this work thought provoking insights on how leaders of higher education institutions in Kenya have had to balance between demands of the political system and the need to safeguard academic traditions in the everyday management of the institutions

Public & Private Universities in Kenya Kilemi Mwiria, Partnership for Higher Education in Africa, 2007 Reviews the history of higher education in Kenya and details the emergence of private universities most of them with a Christian religious orientation as major players in the provision of tertiary level education **Thus Until** Emilia Ilieva, Reuben Matheka, 2025-08-04 **Thus Until** A History of Egerton University is a thorough historical chronological and well researched account of Egerton University from a whites only college when it started in 1939 through to the expansion it has experienced over the years culminating in being a full university More than any other university in Kenya Egerton has a long and colourful history but like all the other universities it has suffered from the political economic and financial challenges of the time especially since the double intake of the 1990s Chapter One provides the required background to the study highlighting agricultural and educational policies and steering away from the Happy Valley hype so characteristic of the period The reader will learn about the Egerton family in Chapter Two and particularly about Lord Egerton himself and the colonial circumstances within which he lived The chapter dispels some of the popularly held myths about him Chapter Three deals with the beginnings of the college and the various structural and

curriculum experiments tried out and the kind of enrolment and students it experimented with as an all white establishment The chapter ends with Africans beginning to agitate for change With great attention to detail the later chapters put the university in a broader local and international context thereby increasing its relevance to society A History of Egerton University though heavily footnoted and with a detailed bibliography is written in a simple easy flowing and accessible style
