Jean Rhys at "World's End" Mary Lou Emery, 2014-01-30 The Caribbean Islands have long been an uneasy meeting place among indigenous peoples white European colonists and black slave populations Tense oppositions in Caribbean culture colonial vs native white vs black male conqueror vs female subject supply powerful themes and spark complex narrative experiments in the fiction of Dominica born novelist Jean Rhys In this pathfinding study Mary Lou Emery focuses on Rhys's handling of these oppositions using a Caribbean cultural perspective to replace the

mainly European aesthetic moral and psychological standards that have served to misread and sometimes devalue Rhys's writing Emery considers all five Rhys novels beginning with *Wide Sargasso Sea* as the most explicitly Caribbean in its setting in its participation in the culminating decades of a West Indian literary naissence and most importantly in its subversive transformation of European concepts of character From a sociocultural perspective she argues persuasively that the earlier novels *Voyage in the Dark* *Quartet* *After Leaving Mr Mackenzie* and *Good Morning Midnight* should be read as emergent Caribbean fiction written in tense dialogue with European modernism Building on this thesis she reveals how the apparent passivity masochism or silence of Rhys's female protagonists results from their doubly marginalized status as women and as subject peoples Also she explores how Rhys's women seek out alternative identities in dreamed of magically realized or chosen communities These discoveries offer important insights on literary modernism Caribbean fiction and the formation of female identity

Jean Stafford Charlotte Margolis Goodman, 2013-11-04 One of America's best short story writers and author of three fine novels *Boston Adventure* 1944 *The Mountain Lion* 1947 and *The Catherine Wheel* 1952 Jean Stafford has been rediscovered by another generation of readers and scholars Although her novels and her Pulitzer Prize winning short stories were widely read in the 1940s and 1950s her fiction has received less critical attention than that of other distinguished contemporary American women writers such as Carson McCullers Flannery O'Connor and Eudora Welty In this literary biography Charlotte M Goodman traces the life of the brilliant yet troubled Jean Stafford and reassesses her importance Drawing on a wealth of original material Goodman describes the vital connections between Stafford's life and her fiction She discusses Stafford's difficult family relationships her tempestuous first marriage to the poet Robert Lowell her unresolved conflicts about gender roles her alcoholism and bouts with depression and her amazing ability to transform the chaotic details of her life into elegant works of fiction These wonderfully crafted works offer insightful portraits of alienated and isolated characters most of whom exemplify not only human estrangement in the modern world but also the special difficulties of girls and women who refuse to play traditional roles Goodman locates Jean Stafford within the literary world of the 1940s and 1950s In her own right and through her marriages to Robert Lowell Life magazine editor Oliver Jensen and journalist A J Liebling Stafford associated with many of the major literary figures of her day including the Southern Fugitives the New York intellectual coterie and writers for the New Yorker to which she regularly contributed short stories Goodman also describes Stafford's sustaining friendships with other women writers such as Evelyn Scott and Caroline Gordon and with her New Yorker editor Katharine S White This highly readable biography will appeal to a

wide audience interested in twentieth century literature and the writing of women s lives **ENC Focus** ,1995 **Jean Peters** Michelangelo Capua,2024-03-05 From 1947 to 1955 Jean Peters 1926 2000 appeared in films opposite such Hollywood leading men as Tyrone Power Marlon Brando Burt Lancaster Spencer Tracy Richard Widmark and Robert Wagner as well as international stars including Louis Jourdan and Rossano Brazzi Despite her talent and status Peters eschewed the star studded lifestyle of 1950s Hollywood turning down roles that were too sexy and refusing to socialize with other actors discuss her private life in the press or lead the glamorous lifestyle often associated with her peers She was seen as a mystery to reporters who constantly tried to discover tidbits about her personal life In 1957 her marriage to Howard Hughes led to her retirement from acting and her further withdrawal from social events in Hollywood Instead she shifted her attention to charitable work arts and crafts and university studies in psychology and anthropology Her status as an enigma only grew as she agreed never to speak of her marriage with Hughes After her divorce however Peters attempted to resume her acting career in television but never regained her previous level of stardom Jean Peters Hollywood s Mystery Girl grants an in depth analysis of each of her nineteen films and is enriched by several high quality photographs from the author s personal collection The Technical Gazette of New South Wales ,1911 *Catalog* Sears, Roebuck and Company,1953 **Carlyle and Jean Paul** J. P. Vijn,1982-01-01 It has always been thought difficult if not impossible to define what the philosophy of Carlyle was Ever since the publication of Sartor Resartus in 1833 1834 the view that Carlyle had a theistic conception of the universe has been defended as well as opposed At a time therefore when Carlyle s work as a whole is being reappraised his philosophy should first and foremost be dealt with Carlyle s life philosophy is based on the inner experience of a process of conversion which set in with an incident that occurred to him at Leith Walk Edinburgh This study which settles the old question of the date of the incident demonstrates that the inner struggle the dynamics of which are described most fully in Sartor is analogous to the Jungian process of individuation For the first time in critical literature the basic ideas of Carlyle s philosophy are thus linked to depth psychology and shown to be analogous to the fundamental concepts of Analytical Psychology In recent criticism it has been asserted that the crisis recorded in Sartor is akin to the crisis of doubt said to underlie Jean Paul s Rede des todten Christus 1796 which is probably the first poetic expression of nihilism in European literature and has become a classic Apart from demonstrating that in the last fifty years at least the Rede has erroneously been interpreted as a dream of annihilation this book invalidates the view of Jean Paul as victim of the skepticism of his age and argues that contrary to what is usually maintained the Rede is not the document of a crisis but of a belief which had become antiquated and obsolete for Carlyle *Official Publication - Association of American Feed Control Officials* Association of American Feed Control Officials,1978 **A Complete Word and Phrase Concordance to the Poems and Songs of Robert Burns** Joseph B. Reid,1889 Physics of Gravitating Systems I A.M. Fridman,V.L. Polyachenko,2012-12-06 It would seem that any specialist in plasma physics studying a medium in which the interaction

between particles is as distance dependent as the interaction between stars and other gravitating masses would assert that the role of collective effects in the dynamics of gravitating systems must be decisive. However, among astronomers, this point of view has been recognized only very recently. So comparatively recently, serious consideration has been devoted to theories of galactic spiral structure in which the dominant role is played by the orbital properties of individual stars rather than collective effects. In this connection, we would like to draw the reader's attention to a difference in the scientific traditions of plasma physicists and astronomers whereby the former have explained the delay of the onset of controlled thermonuclear fusion by the intrigues of collective processes in the plasma while many a generation of astronomers were calculating star motions, solar and lunar eclipses and a number of other fine effects for many years ahead by making excellent use of only the laws of Newtonian mechanics. Therefore, for an astronomer, it is perhaps not easy to agree with the fact that the evolution of stellar systems is controlled mainly by collective effects and the habitual methods of theoretical mechanics. III astronomy must make way for the method of self-consistent fields. Social Register, New York, 1925. Includes Dilatory domiciles.

Classics in Post-Colonial Worlds Lorna Hardwick, Carol Gillespie, 2010-07-29. Classical material was traditionally used to express colonial authority but it was also appropriated by imperial subjects to become first a means of challenging colonialism and then a rich field for creating cultural identities that blend the old and the new. Nobel prize winners such as Derek Walcott and Seamus Heaney have rewritten classical material in their own cultural idioms while public sculpture in southern Africa draws on Greek and Roman motifs to represent histories of African resistance and liberation. These developments are explored in this collection of essays by international scholars who debate the relationship between the culture of Greece and Rome and the changes that have followed the end of colonial empires.
