teacher educators and students of music education **Music's Immanent Future** Sally Macarthur, Judy Lochhead, Jennifer Shaw, 2016-05-12 The conversations generated by the chapters in *Music's Immanent Future* grapple with some of music's paradoxes that music of the Western art canon is viewed as timeless and universal while other kinds of music are seen as transitory and ephemeral that in order to make sense of music we need descriptive language that to open up the new in music we need to revisit the old that to arrive at a figuration of music itself we need to posit its starting point in noise that in order to justify our creative compositional works as research we need to find critical languages and theoretical frameworks with which to discuss them or that despite being an auditory system we are compelled to resort to the visual metaphor as a way of thinking about musical sounds Drawn to musical sound as a powerful form of non verbal communication the authors include musicologists philosophers music theorists ethnomusicologists and composers The chapters in this volume investigate and ask fundamental questions about how we think converse write about compose listen to and analyse music The work is informed by the philosophy primarily of Gilles Deleuze and Felix Guattari and secondarily of Michel Foucault Julia Kristeva and Jean Luc Nancy The chapters cover a wide range of topics focused on twentieth and twenty first century musics covering popular musics art music acousmatic music and electro acoustic musics and including music analysis music's ontology the noise music dichotomy intertextuality and music listening ethnography and the current state of music studies The authors discuss their philosophical perspectives and methodologies of practice led research including their own creative work as a form of research *Music's Immanent Future* brings together empirical cultural philosophical and creative approaches that will be of interest to musicologists composers music analysts and music philosophers **Trauma-Informed Pedagogy and the Post-Secondary Music Class** Kimber Andrews, Kristy Swift, 2025-03-28 *Trauma Informed Pedagogy and the Post Secondary Music Class* explores the theory and practice of teaching and learning in a traumatized world and aims to support instructors in guiding students and walking with them through challenges that impact learning With analysis contextualized within definitions of trauma critical theoretical trauma studies and clinical understandings of the causes and effects of trauma on the brain and nervous system the book offers ways to empower faculty and students to build classrooms where it is safe enough to address the stress and trauma of learning Bringing together a unique multidisciplinary group of contributors this book includes perspectives from both music faculty and mental health counseling specialists The volume engages music scholars and educators in higher education with scholarship on trauma informed pedagogy provides examples of how to introduce trauma informed practices into music courses explores how trauma informed practices can increase both faculty and student well being and offers practical materials such as syllabi and assignments that instructors can implement in their classes Reaching across disciplinary boundaries to contribute to an emerging body of research teaching and learning this is a vital collection for educators across music higher education **Journal of Music Theory Pedagogy** ,2011

Teaching Approaches in Music Theory Michael R. Rogers, 2004 Drawing on decades of teaching experience and the

collective wisdom of dozens of the most creative theorists in the country Michael R Rogers's diverse survey of music theory one of the first to comprehensively survey and evaluate the teaching styles techniques and materials used in theory courses is a unique reference and research tool for teachers theorists secondary and postsecondary students and for private study This revised edition of *Teaching Approaches in Music Theory An Overview of Pedagogical Philosophies* features an extensive updated bibliography encompassing the years since the volume was first published in 1984 In a new preface to this edition Rogers references advancements in the field over the past two decades from the appearance of the first scholarly journal devoted entirely to aspects of music theory education to the emergence of electronic advances and devices that will provide a supporting if not central role in the teaching of music theory in the foreseeable future With the updated information the text continues to provide an excellent starting point for the study of music theory pedagogy Rogers has organized the book very much like a sonata Part one Background delineates principal ideas and themes acquaints readers with the author's views of contemporary musical theory and includes an orientation to an eclectic range of philosophical thinking on the subject part two Thinking and Listening develops these ideas in the specific areas of mindtraining and analysis including a chapter on ear training and part three Achieving Teaching Success recapitulates main points in alternate contexts and surroundings and discusses how they can be applied to teaching and the evaluation of design and curriculum *Teaching Approaches in Music Theory* emphasizes thoughtful examination and critique of the underlying and often tacit assumptions behind textbooks materials and technologies Consistently combining general methods with specific examples and both philosophical and practical reasoning Rogers compares and contrasts pairs of concepts and teaching approaches some mutually exclusive and some overlapping The volume is enhanced by extensive suggested reading lists for each chapter

Aural Skills Acquisition Gary Steven Karpinski, 2000 This book is about thinking in music Music listeners who understand what they hear are thinking in music Music readers who understand and visualize what they read are thinking in music This book investigates the various ways musicians acquire those skills through an examination of the latest research in music perception and cognition music theory along with centuries of insight from music theorists composers and performers Aural skills are the focus the author also works with common problems in both skills teaching and skills acquisition

Expanding the Canon Melissa Hoag, 2022-12-30 Directly addressing the underrepresentation of Black composers in core music curricula *Expanding the Canon Black Composers in the Music Theory Classroom* aims to both demonstrate why diversification is badly needed and help faculty expand their teaching with practical classroom oriented lesson plans that focus on teaching music theory with music by Black composers This collection of 21 chapters is loosely arranged to resemble a typical music theory curriculum with topics progressing from basic to advanced and moving from fundamentals diatonic harmony and chromatic harmony to form popular music and music of the twentieth and twenty first centuries Some chapters focus on segments of the traditional music theory sequence while others consider a

single style or composer Contributors address both methods to incorporate the music of Black composers into familiar topics and ways to rethink and expand the purview of the music theory curriculum A foreword by Philip Ewell and an introductory narrative by Teresa L Reed describing her experiences as an African American student of music set the volume in wider context Incorporating a wide range of examples by composers across classical jazz and popular genres this book helps bring the rich and varied body of music by Black composers into the core of music theory pedagogy and offers a vital resource for all faculty teaching music theory and analysis
