

ADVANCED CONTROLS

ENERGY ALLOCATION

There are three primary systems on the ship: Shields, Weapons, and Engines. At any time, you can boost the performance of one area by reducing the performance of another. Press and hold the **Shift** key to bring up the Energy Allocation Panel. Use the **W**, **S**, **A**, and **D** keys to reallocate energy to the different systems.

The three systems that you may allocate energy to are:

Engines

Adjusting the amount of energy supplied to a ship's engines varies its top impulse speed from a minimum value to a maximum value. Increasing energy to a ship's engines also improves its turning ability.

Weapons

Adjusting the amount of energy supplied to a ship's weapons varies the recharge rate of its weapons ports and increases phaser range.

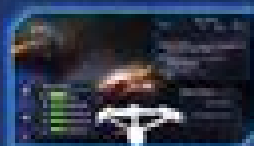

Shields

Adjusting the amount of energy supplied to a ship's shields varies the recharge rate of its shield generators.

ENGINEERING SCREEN

The Engineering Screen allows you to prioritize the field repairs on your ship. Left alone, your repair crews will repair all systems equally. However you can also choose to focus repairs on one system at the expense of repairing the others. The **R** key will bring up the repair panel (as well as the **Forward** button on the mouse).

Use the mouse to highlight the subsystem that you want to repair. To select a different ship to repair, use **1**, **2**, **3**, or **4** keys to select that ship.

FLEET CONTROL

Star Trek: Legacy allows you to command up to four ships at once. Use the **1**, **2**, **3**, or **4** keys to switch between the ships in your fleet.

By default, all of the ships in your fleet are grouped together. At any time, you can separate a ship from the group and give orders independent of the other ships.

To select all ships:

Press the **5** key.

To select one ship:

Press the **1**, **2**, **3**, or **4** keys.

Group Orders

Spacebar + **5** key - Change current target to closest target of focus ship

Spacebar + **A** key - Target nearest attacker

Spacebar + **D** key - Clear target

Spacebar + **W** key - Time at Warp

COMMAND VIEW

Press the **Tab** key to bring up the Command View. This view shows a strategic map showing all known objects within your scanner range.

You can quickly issue orders to ships in Command View. Select a ship or ships with the **1**, **2**, **3**, or **4** keys.

Press the **Back** button on the mouse or the **G** key to order them to move/attack, or press the **Middle Mouse** button or **Q** key to have them warp to a given location.

The Star Trek Signature Edition series continues with this thrilling adventure featuring Commander Spock Captain Kirk and the U S S Enterprise Of all the experiences shared by Captain Kirk and the crew of the Starship Enterprise during their first five year mission two were among the most perilous a journey to the nonphysical realm of Transition where the massive computer known as Memory Prime was situated and the nightmarish mission to Talin IV a world poised on the brink of destruction that Kirk was forbidden to save In the twenty third century a hundred years before a sentient artificial life form would be allowed to earn a Starfleet commission the Federation considers the use of self aware artificial intelligences to be little more than slavery except for the immense computer system of Memory Prime the key hub in the Federation's vast network of interstellar library planets There the A I's known as Pathfinders inhabit Transition a virtual world so different from our universe that the A I's themselves debate whether or not the physical universe is real But when an ancient enemy reaches out from the shadows of Vulcan's darkest history and threatens to destroy the Federation Spock must risk his career and his life to enter the Pathfinders realm Technologically and politically Talin IV is little different from late twentieth century Earth But as a series of mysterious events pushes that world closer to self annihilation the Prime Directive prevents Captain Kirk and his crew from doing anything to prevent it When the worst appears to happen and Kirk takes desperate action to give the Talin a chance to step back from the nuclear abyss Talin IV is consumed by radioactive fire Now with a world destroyed and the Enterprise dead in space the careers of Kirk and his crew are over Disgraced and despised Kirk has only one chance to redeem himself and his crew Somehow he must make his way back to Talin IV and discover what really happened even if it means proving that a world died because he broke Starfleet's most sacred law
