Interactive Activity: Divisions of the Nervous System

Part A – Structural Classifications of the Nervous System

We have only one nervous system, but, because of its complexity, it is difficult to consider all its parts at the same time. So, to simplify its study, we divide it in terms of its structures (structural classification) and in terms of its activities (functional classification).

In this activity, we will divide the nervous system into the two structural divisions. Drag the correct description to the appropriate nervous system division bin.

ANSWER

Correct

Part B – Functional Classifications of the Peripheral Nervous System

In this activity, we will divide the peripheral nervous system into functional divisions. We will progress from the large, general divisions to specific divisions. Drag and drop the correct functional division to the location on the diagram.
