

CRATE FXT65 Guitar Amp with DSP & Channel Tracking

18: POWER: Use this switch to turn the amplifier on (top of the switch depressed) and off (bottom of the switch depressed). The switch illuminates when the power is on.

19: ELECTRONIC TUNER (top panel): The electronic tuner is active whenever the amplifier is turned on, providing constant, "real time" tuning. The bottom row of LEDs indicate which note (string) is being tuned. The top row of LEDs provides directional queues to facilitate quick and precise tuning of your instrument. The indicated note (string) is properly tuned when only the center LED is illuminated.

The Rear Panel (not shown):

20: FUSE: The fuse protects the amplifier from damages caused by a faulty AC power source and/or other problems. If the fuse opens, replace it **ONLY** with the same size and type. If the fuse continues to fail, check the AC source – if the source is okay, contact your Crate dealer for service information.

21: CHANNEL / GAIN SELECT FOOTSWITCH: Use this jack to connect the 1/4" stereo plug on the footswitch cable to the three-button footswitch (supplied). This allows you to remotely switch between the Clean and Overdrive channels and between Overdrive Gain 1 and Gain 2. When a footswitch is used, the front panel Gain and Channel Select switches (#5, #9) are rendered ineffectual.

22: DSP FOOTSWITCH: Use this jack to connect the 1/4" mono plug on the footswitch cable to the three-button footswitch (supplied). This allows you to remotely turn the DSP on and off.

23: AC LINE CORD: This grounded power cord is to be plugged into a grounded power outlet, wired to current electrical codes and compatible with the voltage, power, and frequency requirements stated on the rear panel. **Do not attempt to defeat the safety ground connection.**

Connecting to the Insert jack:

The Insert jack (#16) allows you to patch an external effects device into the amplifier prior to its power amp stage. Use Crate's STP201, STP202, or STP203 stereo-to-mono Y-cord or an adapter such as Crate's YPP117 and two 1/4" mono signal cables to connect the effect as shown to the immediate right.
